Smt. V. Prathima,
Director

PREFACE

Directorate of Economics and Statistics, Andhra Pradesh regularly brings out Annual Administration Report on the activities of the department every year. This publication gives a comprehensive idea about the activities of the department.

DES mainly focuses on collection and compilation of statistics in different areas like Area, Yield and Production of all crops, Prices, Industrial Statistics, State Income Estimates. DE&S also participates in the Minor Irrigation census and Census of Land Holdings as per the guidelines issued by GoI. DE&S collects, compiles and publishes statistics furnished by different departments. The “Statistical Abstract” gives a wide array of data pertaining to the socio economic scenario of the state.

The activities and work done by DE&S AP are applauded on various platforms in the National workshops and regional meetings on different subjects and benchmarked for other States.

The performance appraisal of DE&S for the year 2017-18 is presented in the Annual Administration Report 2017-18.

I appreciate the efforts made by officers and staff in bringing out this report.

Vijayawada
Date: 10-02-2020.

V. Prathima
Director

Officers & Staff Associated with this Report:

I. Introduction

Directorate of Economics and Statistics, Andhra Pradesh is responsible for collection, compilation and analysis of data sets to be used by the Government in taking policy decisions.

DES is the “Nodal Agency” for developing an efficient statistical system and ensuring technical coordination in the matters relating to statistical activities in the State. DES collects data from all the Line Departments in the State for all statistical inferences. DES is pro-active in capacity building by organising various training programmes/workshops to the statistical fraternity within the DE&S as well as Line Departments.

DES collects data on Rainfall, Prices, Area Statistics, Yield Statistics, ASI, Business Register data on daily, weekly, monthly, quarterly, seasonal & annual basis, besides conducting of various surveys/Censuses viz., SLAP, EC, SES, CLH, MIC etc duly coordinating with the Line Departments.

DES adopts scrutiny & validation checks at each level i.e., from the field level (A.S.O) to Head quarters and monitor the quality and timeliness of data flow. The DES, AP makes use of latest technology for proper digitalisation of data.

DE&S, AP conducts various need based surveys to meet immediate requirement of the Government for taking policy decisions like Multi-purpose Poverty Index, Global competitiveness Index, Survey on Happiness Index, Third Party Evolution on Government schemes through UNICEF and other prestigious international institutions.

Nodal agency

In pursuance of NSC recommendations and also to meet the requirements of India Statistical Strengthening Project (ISSP) initiated by the Ministry of Statistics and Programme Implementation (MOSPI), GOI, the Government of Andhra Pradesh issued a notification declaring DES as the Nodal Agency vide G.O. Ms. 12, Planning (XVIII) Department, dated:12-4-2010 for developing an efficient statistical system and ensuring technical coordination in all matters relating to statistical activities in the State. Directorate of Economics and Statistics is broadly made responsible for (i) Coordination of Statistical activities

of various line Departments/ Organizations of the State (ii) Identify the training needs and arrange to conduct training programmes to the Statistical Personnel in line departments at State and Sub-State levels etc.

DES, Andhra Pradesh is also implementing "Support for Statistical Strengthening (SSS)" Scheme under the aegis of the GOI to bridge the data gaps and to strengthen the data sets for better estimation of GSDP, since 2011-12. The DES, AP completed most of the works proposed under SSS and the remaining activities are nearing completion. DES collects data on season-wise area, Production & Productivity estimates of all major crops every year and compiles the data sets for analysing the results, so as to furnish the information to the Governments at State & Central level. DES, Andhra Pradesh also takes up various publications viz., Statistical Abstract of Andhra Pradesh, Season and Crop Report, Report on Annual Survey of Industries, Hand Book of Statistics, Andhra Pradesh Economy in brief, etc.

The DES, AP has been designated as State Level Authority on the following important subjects.

- (i) State Agricultural Statistics Authority (SASA)
- (ii) State Rainfall Registration Authority (SRRA)
- (iii) State Irrigation Statistics Authority (SISA)

Collection of Statistics Act, 2008

Ministry of Statistics and Programme Implementation (MOSPI), Government of India brought out the Collection of Statistics Act, 2008 (No. 7 of 2009). The Rules have been notified under this Act as the Collection of Statistics Rules, 2011 for implementation in the country.

The Act facilitates the collection of statistics on economic, demographic, social, scientific and environmental aspects and matters connected therewith or incidental thereto, not only from industrial and commercial concerns but also from individuals and households.

For this purpose, the Government of Andhra Pradesh vide G.O.Ms.No.13, Planning (XV) Department, dated: 08-07-2011 designated the Director, DE&S, Govt. of Andhra Pradesh as Nodal Officer for the State.

Functions & Activities of DE&S

DE&S comprises of Headquarters, Chief Planning Offices at District level and field functionaries at Revenue Division and Mandal levels. As mentioned above, DE&S is at the centre of the statistical system in Andhra Pradesh, carrying out the following statistical activities associated with the official statistical system.

1. Collection, compilation, classification, tabulation, analysis, dissemination and presentation of data on various socio-economic aspects of the State in a systematic manner.
2. Conducting sample surveys/censuses and other ad-hoc field surveys etc., on various socio-economic aspects.
3. Co-ordinating the statistical activities of various departments of the State Government
4. Organisation of "in service training" to the statistical personnel.
5. Liaison with the statistical organisations of the Government of India and other State Governments.
6. Interaction with statistical agencies at National level, RBI and Research Institutions/Universities and
7. Dissemination of official statistics through periodic publications

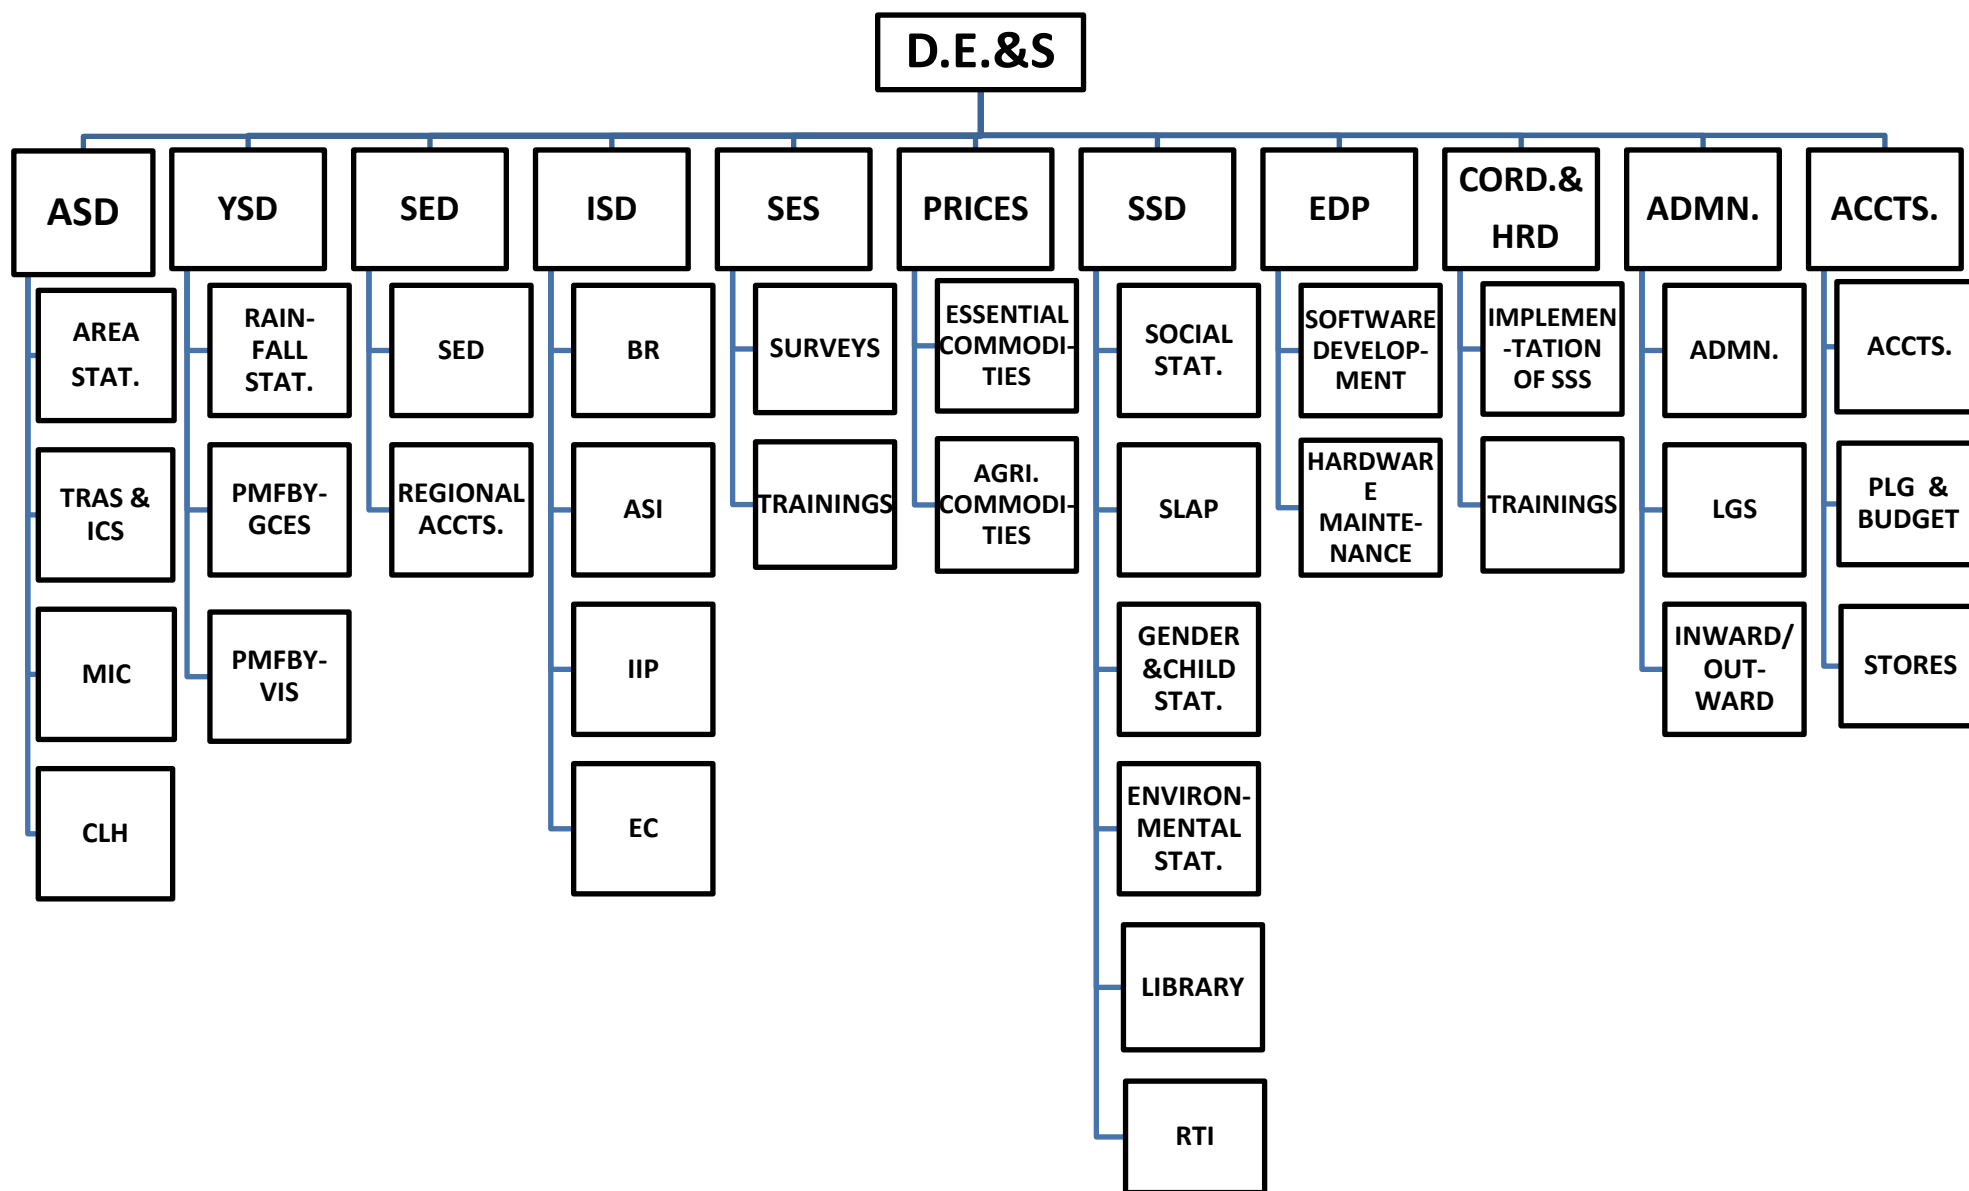

Further, the Director, DE&S is associated with number of committees constituted by various Departments/Agencies, important of them is mentioned below:

- Member-Convener, Standing Committee for Finalization of Consumer Price Index for Industrial Workers (CPIIW)
- Member, State Level Co-ordination Committee on Crop Insurance constituted by Agriculture Department.
- Member, Committee on Statistics of Agriculture and allied sectors.
- Convener of SLCC and Addl. State Agriculture Census Commissioner
- Census Commissioner of MI Schemes

All the functions of DES are grouped into the following technical divisions for administrative convenience and each division is headed by a senior officer in the cadre of Joint Director or Deputy Director.

- a. Agricultural Statistics Division (ASD)
- b. Yield Statistics Division (YSD)
- c. State Economy Division (SED)
- d. Industrial Statistics Division (ISD)
- e. Socio Economic Survey Division (SED)
- f. Price Statistics Division
- g. Social Statistics Division (SSD)
- h. Electronic Data Procession Division (EDP)
- i. Co-ordination & HRD Division (C&HRD)
- j. Administration Division
- k. Budget, Stores & Accounts Division

The above Divisions are further divided into the following Units, each of which is entrusted with specific areas of work headed by an officer in the cadre of Asst. Director/ Statistical Officer.

Organisation set up

There are 13 Offices of Chief Planning Officers, one in each District under DE&S, headed by a Joint Director Cadre officer, designated as Chief Planning Officer with supporting technical staff and administrative assistants are functioning in the State. The principal functions of these offices are of two fold, (i) Assisting the district administration to review all the developmental activities taken up in the District and also monitoring the implementation of MPLADS, CDP, 20 Point Programme, Prajapatham and other flagship programmes of the Government being implemented through the Planning Department, and (ii) Statistical activities of the Directorate of Economics Statistics (DE&S).

There are 50 Revenue Divisions in the State and at the Division level, there is one statistical functionary viz., Divisional Deputy Statistical Officer (Dy.S.O), located in the Office of the Revenue Divisional Officer (RDO) and attends to the compilation of various Statistical reports at Divisional level and also supervises the field work of Mandal Assistant Statistical Officers of respective Divisions and submits consolidated Divisional reports to the Chief Planning Officer. There are 668 mandals in the State. One statistical field functionary i.e., Assistant Statistical Officer (ASO) sanctioned to each mandal is located in Tahsildar's office and attends to all statistical item of works at mandal level.

All the officers and staff working in DE&S are recruited by Andhra Pradesh Public Service Commission (APPSC) under common cadre of A.P. Economic and Statistical Service. The total cadre strength of the department is 1346 comprising of 124 Officers, 1117 Non-Gazetted officers and 105 Class IV employees. The details are given in the following table:

Sl. No	Designation	Office of the DE&S	Office of the Chief Planning Officers	Planning and Other Offices	Vacant	Total

Line Departments

The core activities of DE&S are mainly estimation of GSDP and other Macro Aggregates. For the purpose of estimation of GSDP, DE&S needs statistical data from various line departments. Certain posts have been sanctioned in line departments to look after the statistical needs of these departments and to furnish the statistical data to DE&S for estimation of GSDP. The posts have been created in 21 line departments and DE&S personnel have been posted to work in those departments. The Statistical posts sanctioned position in Line Departments is given below:

Sl.No .	Name of the Department	Staff Sanctioned						
		JD	DD	AD	SO	DySO	ASO	Total
1.	Commissioner of Rural Development					2	1	3
2.	A.P. Commission for B.Cs		1					1

Human Resource Development (HRD)

Human Resource Development (HRD) section is imparting various trainings to all the employees to develop their personal and organizational skills, knowledge and abilities. Training can significantly enhance capabilities of public functionaries both individually and collectively, to discharge their duties better. Such capability building is necessary to introduce greater efficiencies within Government and to improve the quality of Government services delivered to citizens.

The officials working in DES are deputed to various training programmes which are organized by the prestigious Institutions viz., AP HRD Institute, Bapatla, NSSTA, Greater Noida, V.V.GIRI National Labour Institute, Noida, U.P. Labour Bureau, Shimla etc., for strengthening the quality of services and improvement of skills in statistical item of works. In-house training programmes are also being conducted on the selected themes/subjects.

During the year 2017-18, the statistical fraternity from DES as well as from Districts (40) are deputed to training programmes on (i) Urban Planning and Management (ii) Sampling Methods and Techniques used in Large Scale Sample Surveys (iii) Documentation & Presentation Skills (iv) Post Disaster Need Assessment and (v) Drafting & Communication Skills.

Electronic Data Processing (EDP) Division:

Directorate is well equipped with the servers and desktops to cater the needs of department in the field of Information Technology. All Systems in the Directorate are well connected with the Local Area Network. Through APSWAN connectivity, all 13 districts in the State are connected to the Directorate.

The EDP division develops the necessary Web based Software for all the activities of the department and also for various censuses and surveys being conducted by the department. Necessary training will be imparted to the district staff for computerization of data at district level. The EDP division is also responsible for Maintenance of Hardware, Software and Networking pertaining to the DES.

Right to Information Act, 2005

All Right to Information applications/Appeals are normally received in the Right to Information section and then forwarded to the concerned Chief Planning Officers in the Districts and the sections in Directorate for their disposal.

During the year 2017-18, a total of 273 applications are disposed out of 294 received. 5 appeals are received and disposed.

Library

Directorate of Economics and Statistics is equipped with a beautiful technical library named P.C.Mahalanobis Library Hall, containing various books, publications, journals, magazines etc. In fact, the Library unit was established in DE&S during the composite Nizam's State of Hyderabad. Various publications brought out based on primary data collected through Mandal ASOs of all the districts have been kept for sale as well as for information to the public, besides various reference books in the library.

The information/data available is very much useful to the Research Scholars, representatives of NGOs, planners, policy makers etc.

II. Agricultural Statistics Division

DES is the State Agricultural Statistics Authority (SASA). The main functions of the Division are

A. Rainfall: The rain water collected by the gauge will be measured everyday at 8.30 A.M in all 670 Revenue Raingages installed in the Mandal headquarters in the State. In addition, 1462 Automatic Weather Stations (AWS) and 414 Automatic Raingage Stations (ARGs) are functioning across the State. The consolidated daily rainfall data of Revenue Raingages is communicated to APSDPS to integrate with AWS rainfall data. The integrated rainfall data is utilised for all official purposes. DES is releasing the following reports viz., 1.Daily Rainfall Report, 2. Weekly Rainfall Report, 3.weekly Status Report, 4.Dry Spell Report and 5.Monthly Rainfall Report and submitted to the Government.

B. Season and Crop Conditions: Season and crop condition report is prepared on weekly and monthly basis for estimating the crops condition in the State.

C. Advance Estimates: Four Advance Estimates on Area, Yield and Production are prepared and furnished to Ministry of Agriculture, Government of India, New Delhi.

D. Timely Reporting of Agricultural Statistics (TRAS): The area enumeration for important crops is taken up for 3573 villages of 13 Districts under TRAS. Card Nos. I, II, III & IV are obtained from Districts & prepared ratio estimates of principal crops and submitted to Ministry of Agriculture, Government of India for both kharif and rabi seasons.

E. Improvement of crop Statistics (ICS) : A sample check is conducted for 350 villages to assess the errors of enumeration in kharif season and 220 villages for assessing aggregation errors in area figures in rabi season. To improve the quality and reliability of yield statistics, the harvest stage supervision is conducted by both DES & NSSO officials on 50:50 basis.

F. Agricultural Census : The collection of Area Statistics at village level is done through Adangals by the Village Revenue Officers (VROs) in two seasons i.e kharif and rabi. After completion of enumeration and compilation of area figures at different levels in the District, DES compiles State report and publishes (i)

Agricultural Statistics at a glance and (ii) Season and crop report annually. Besides these, (i) Quarterly estimates of production (ii) Normal areas & (iii) Index Number of Agricultural Production.

H. Agricultural Census of Land Holdings: This census is taken up in three phases. The information is captured from Adangals on number and area of operational holdings, social groups (SC,ST and others), Gender wise information in Phase -I. Phase -II data is collected through H schedule on dispersal of holdings, tenancy, land use etc. Phase-III i.e input survey is taken up for collection of data on agricultural inputs i.e seeds, fertilisers, pesticides etc along with agricultural implements & mechanism. The field work of three phases pertaining to 10th Agricultural Census of Land Holdings is completed.

Minor Irrigation Census: The scheme is aimed to build a comprehensive and reliable data base in the Minor Irrigation Sector for future planning. So far five (5) censuses were completed. 6th MIC with reference year 2017-18 is taken up to canvass five schedules viz., (1) Village Schedule (2) Urban Schedule (3) Ground Water Scheme Schedule (4) Surface water Scheme Schedule and (5) Water Body Schedule. VRO/VRA are the enumerators in rural and urban areas and the supervision is entrusted to higher supervisory level officers of the field functionary at mandal level.

III. Yield Statistics Division

A. Crop Estimation Surveys (CES) on agricultural crops: The objective of crop estimation survey is to obtain the estimates of average yield per hectare (productivity) and total production of principal crops both at district and state levels by conducting crop cutting experiments.

DES organised crop cutting experiments for 11 food crops and 11 non-food crops on the random sampling basis for the year 2017-18. After conducting CC Experiments, the average yields per hectare of selected crops and their total production in the State is computed both for Districts as well as State as a whole.

Planning and Designing: The procedures and techniques involved in the survey have been finalised based on the results of pilot surveys carried out by the Indian Agricultural Statistics Research Institute (IASRI), New Delhi. The mandal wise and crop wise sample size of plan for the year 2017-18 is communicated to districts. In turn, village/agency wise plan for conduct of C.C. Experiments is prepared at District level. 22 crops in kharif season and 15 crops in rabi season are planned for conduct of C.C. experiments during the year 2017-18.

B. NON CC: Yield estimation through oral enquiry method: Under oral enquiry method, the information regarding area and production of the crops is obtained from the selected farmers and the average yield of that village will be arrived. At mandal level, the average yields are worked out on simple average basis but the district average yield is estimated by weighted average method taking respective mandal wise areas as weights. A total no. of 66 crops from kharif season and 33 crops for rabi season are planned to take up under non CC.

C. Village Insurance Scheme: As per instructions of GOI, New Delhi, Village Insurance Scheme (VIS) has been taken up under "Pradhan Mantri Fasal Bima Yojana (PMFBY)" and was implemented in all 13 districts during the year 2017-18. Under this scheme, losses, due to preventive /late sowings, localised risks like hailstorm, earthquake and post harvest losses are also covered. One predominant crop has been selected for "Village made as Insurance Unit" in the

districts under PMFBY. A total no.of 28644 experiments are planned for 2017-18 Kharif season and 15174 for Rabi season.

The C.C Experiments methodology is adopted to Village Insurance Scheme (VIS) also without any modifications. The primary workers for this scheme are A.E.Os & MPEOs of Agriculture Department and Part time primary workers appointed purely on temporary basis. The technical work of the primary workers was monitored and supervised by Assistant Statistical Officer, Mandal Agriculture Officer and Part time supervisors at Mandal level.

The part time supervisors are engaged in the mandals where the post of Assistant Statistical Officer is vacant. Senior Officers from Directorate of Economics & Statistics, Agriculture Department and Insurance Companies have supervised the experiments at harvest stage. Yield results are monitored daily through online from Directorate to avoid any lacunae. The Unit wise estimates were generated and furnished to the Department of Agriculture and Insurance Companies before the cut off dates.

A total no. of 60925 farmers in kharif season with an amount of Rs.8843.09 Lakhs and 66720 farmers in Rabi Season with an amount of Rs.14657.63 were benefitted during the year 2016-17 under this scheme.

IV. State Economy Division

The State Domestic Product (SDP) commonly known as State Income is one of the important indicators to measure the economic development of the state.

The State Domestic Product is defined as the aggregate of the economic value of all goods and services produced within the geographical boundaries of the state, counted without duplication during a specified period of time, usually a year. These estimates are prepared both at Current and Constant (2011-12) prices.

The State Economy Division (SED) compiles the State/District Domestic Product estimates every year by following the methodology specified in System of National Accounts (SNA) and as suggested by the Central Statistics Office, New Delhi to assess the progress of economy by the policy makers and Administrators.

For the purpose of estimation of State Domestic Product, the state economy is broadly classified into Agriculture, Industry and Services sectors.

The estimates of State Domestic Product (SDP) are prepared and released in four stages namely, Advanced Estimates (AE), First Revised Estimates (FRE) , Second Revised Estimates (SRE) and Third Revised Estimates (TRE) to meet the requirements of the Government, policy makers and researchers.

In addition to the above, the State Economy Division releases the quarterly estimates for 1st & 2nd quarters in the months of September and December respectively on par with CSO .

Advance Estimates (AE) Of 2017-18 At Constant (2011-12) Prices

The DES compiled the Advance Estimates of GSDP for the Year 2017-18 at Constant (2011-12) Prices based on the Advance Estimates of Agriculture Production, Horticulture production data provided by Horticulture department, production data on milk, meat & egg furnished by the Animal Husbandry Department, production estimates of fisheries furnished by the Fisheries Department, Production data for mining & quarrying from Mines and Geology Department, Vehicles data from Transport department, Index of Industrial Production (IIP), Sales Tax, analysis of Budget and relevant indicators supplied by CSO.

The Performance of the corporate sector during April-December 2017 has also been taken into account while compiling advance estimates. The Trends of the All India Gross Value Added Estimates as per methodology have also been taken into consideration in certain sectors and adopted appropriate indicators where ever the data sets are not available at State level.

The Advance Estimates at **Current Prices** are derived by the **Implicit Price Deflator (IPD)** method at sectoral level from the relevant price indices as per the methodology provided by the CSO.

A.E-Advance Estimates, FRE-First Revised Estimates, SRE-Second Revised Estimates

- **Gross State Domestic Product (GSDP)** at Constant (2011-12) prices for the year 2017-18(AE) is estimated at **Rs.607388 Crore** registering an impressive growth of **11.22%** whereas the **All India** registered a GDP growth of **6.6%** only. The gap is about 4.6%.

Gross Value Added (GVA) at Basic Prices {2011-12 base}

- As per the Advance Estimates, the GVA at Constant (2011-12) Prices is estimated at **Rs.548439 crore** in **2017-18** registering GVA growth of **11.39 percent**, whereas the **GoI** registered a GVA growth of **6.4%** only. The gap is about 5.0%.
- The sectors that propelled the growth of the state economy with an impressive growth rate of 10% and above are Agriculture (12.30%) Horticulture (17.16%), Livestock (13.05%), Fishing (30.84%) in the

Agriculture & Allied Sector and Mining & Quarrying (8.90%), Manufacturing (8.36%), Electricity (9.07%) and Construction (8.34%) in Industry Sector and Transport (10.64%), Communication (12.22%), Real estate and Ownership of Dwellings (10.45%), Public Administration (8.41%) & Other Services (9.74%) of Services sector. Trade, Hotel and Restaurants sector (6.08%) also played a vital role in retaining double digit growth.

Per Capita Income

- The Per Capita Income (NSDP) of Andhra Pradesh during 2017-18 at current prices is estimated at **Rs.1,42,054** as compared to **Rs. 1,23,664** in 2016-17(FRE).
- The Per Capita Income (NNI) of All India is **Rs.1,12,764**.

Preparation of FRBM Frame work

The GSDP estimates, 2017-18 are submitted to the Finance Department to prepare a macro economic framework statement and fiscal policy statement for placing before the Legislature at the time of Budget sessions as part of Andhra Pradesh Fiscal Responsibility and Budget Management (APFRBM) Act 2005.

The estimates are also submitted to the Planning Department to include in the Socio Economic Survey report for placing before the Legislature at the time of Budget session.

District Domestic Product (District Income)

The District income Estimates are compiled in the new series with 2011-12 as base year. The District GVA has been compiled using the district wise production & prices and relevant indicators wherever the datasets are not available.

As per the District Gross Value Added estimates of 2017-18(AE) at current prices, Krishna District stood in first position with a DDP of Rs.88829 crores followed by Visakapatnam (Rs.81993 crores) and East Godavari (Rs.75070 crores) districts, while bottom three positions are occupied by Vizianagaram (Rs.25955 crores) Srikakulam (Rs.27982 crores), and YSR Kadapa (Rs.37578 crores) districts .

Mandal Domestic Product Estimates

Compilation of the Mandal Domestic Product (MDP) Estimates was completed on a Pilot basis in East Godavari and Ananthapuramu districts and later, these Estimates were also completed in the remaining districts. Andhra Pradesh is the pioneer state in compilation of estimates at mandal level.

Identification of key Growth Engines in the Economy

It is observed that about 40 growth engines are the driving forces of Gross State Domestic Product (GSDP) which influencing the growth trends of the State Economy.

Action plan to improve the performance of these growth engines by the respective departments and periodical monitoring by means of compiling Quarterly Estimates of GSDP will help to take off the State Economy on growth trajectory.

The Sector Wise Growth Engines of the state and all the districts have been prepared in the New Series with 2011-12 as base year so as to depict the true picture to the policy makers and to launch new projects.

Budget Analysis

The State Economy Division collects State Government budget documents from AP Finance Department and analyses the same as per economic cum purpose classification to arrive estimates of Government contribution to GSDP/GFCF. The Budget Document has been analysed and the sector wise GVA has been estimated and incorporated in preparation of GSDP estimates.

Analysis of Local Body Accounts:

The division collects annual accounts from all local bodies (rural and urban) including Urban development authorities. The main objective of the analysis of annual accounts is to capture the contribution of the Public sector transactions in the State Income and Capital Formation. The Annual Accounts of all 12918 Local Bodies have been collected for the year 2016-17 and analysed through the software developed by CGG . The Sector GVA/GFCF has been estimated and incorporated in preparation of GSDP estimates

Non Departmental Enterprises (NDEs)

State Economy Division collects the annual accounts of 75 State NDEs for the year 2016-17 and analysed the accounts through the software provided by CSO. Sector wise GVA/GFCF is estimated and incorporated the same in preparation of GSDP estimates

Trainings & Workshops

- 5 day Regional Training Workshop on State Income and related aggregates comprising States (Tamilnadu, Andhra Pradesh, Delhi, Telangana, Kerela, Madhya Pradesh, Rajasthan, Karnataka, Gujarat, Maharasthra, Uttara Pradesh and West Bengal) was held during 12-16th February, 2018 (5 Days) at Mahabalipuram, Tamilnadu.
- The Central Statistics Office organised a workshop to the Southern States and discussed on the estimates of State Domestic Product for formulation of fiscal policies. The SED Officials of DE&S participated in the workshop. The Central Statistics Office, being the nodal organisation provides technical guidance so that the States come out with more reliable estimates of not just the State/District Income, but also of expenditure aggregates, like Capital Formation, Consumption Expenditure, etc. which help in analyzing the current growth of the State Economy and its future growth potential. In the context of base year revision and implementation of SNA-2008 recommendations, this workshop helped a lot to the State Officials for compilation of reliable estimates.

Joint Discussions on the Comparable Estimates in finalization of the GSDP Estimates at CSO, New Delhi.

Central Statistical Organisation, New Delhi organized Joint Discussions on Comparable Estimates of State Domestic Product in the New Series with Base Year 2011-12 for the years 2014-15 and 2015-16 with the officials of National Accounts Division and the representative of States/ UT's to reconcile the differences if any in the GSDP estimates prepared by DE&S's and CSO in the month of May 2017 at New Delhi. The Director, DE&S, officers & Staff of SED participated in the Joint Discussions on the comparable estimates at CSO, New Delhi in the month of May, 2017.

V. Industrial Statistics Division

A. Index of Industrial Production

Comparison of economic performance over time is a key factor in economic analysis and a fundamental requirement for policy making. Short-term indicators play an important role in this context by providing such comparison indicators. Among these short-term indicators, historically, the Index of Industrial Production (IIP) is one of the most well known and well-used indicators. The IIP measures volume changes in the production of an economy and therefore provides a measurement that is free from influences of price changes.

IIP is an abstract number, the magnitude of which represents the status of production in the industrial sector for a given period of time when compared to a particular reference period of time. The IIP is a short-term indicator of industrial growth till the actual results released from Annual Survey of Industries (ASI) and National Accounts Statistics. This indicator is of paramount importance to the Government for policy planning purposes and is also being extensively used by various organizations including Industrial Associations, Research Institutes and Academicians.

COVERAGE

The present Index of Industrial Production covers the Mining, Electricity and Manufacturing sectors only.

SHIFTING OF BASE YEAR FROM 2004-05 TO 2011-12

To capture the changes in the structure and composition of the Industry over time due to the technological changes, economic reforms and consumption pattern of the people, the base year needs to be changed periodically.

The Government of Andhra Pradesh shifted the base year to 2011-12 from 2004-05. National Industrial Classification (NIC) – 2008 was adopted in the new series instead of NIC – 2004.

The Index of Industrial Production is released with new base year 2011-12 in the South Zone Regional Conference of State IIP at Visakhapatnam.

B. Annual Survey of Industries (ASI)

The National Sample Survey Office (NSSO), Government of India is conducting Annual Survey of Industries (ASI) in the State every year. NSSO collects data of factories having 100 or more workers and all units having less than or equal to 4 units in a district in the same 3 digit NIC code under Census Scheme. Besides Census Scheme, NSSO also covers certain selected units with less than 100 workers under Sample Scheme in which an equal No. of selected units is canvassed by Directorate of Economics & Statistics (DES). It collects the selected sample unit's data in the prescribed schedule communicated by CSO (IS wing), Kolkata. ASI covers factories registered under section 2m (i) and 2m (ii) of the Factories Act, 1948 employing 10 or more workers with power and 20 or more workers without power respectively.

The ASI has been designed to obtain comprehensive and detailed data to achieve the following objectives viz.,

- a) Estimation of the contribution of manufacturing industries as a whole and of each type of industry to the State Income.
- b) Systematic study of the structure of industry as a whole and each type of industry.
- c) To analyze the various factors influencing industries in the State.
- d) Construction of comprehensive, factual and systematic basis for formulation of policy.

The ASI schedule consists of Part-I and Part-II. The details of data on Assets & Liabilities, Employment and Labour cost, receipts, expenses, Input items, Products and By-products manufactured etc., are collected in Part-I and Part-II is exclusively designed for Labour Bureau purpose collects data of labour statistics viz., working days, man days worked , absenteeism, labour turnover, man- hours worked etc.

The Central Statistics Office (CSO, IS wing), Government of India furnishes unit level data of both census and sample units surveyed by NSSO for pooling purpose. Pooling of central and state level ASI data for publishing district level estimates is an important activity that needs to be performed by the state. All the census and sample units canvassed by NSSO and DES are treated as the

Pooled sample for the state. The State and district level values of various parameters of Industrial sector are estimated by taking into account pooled sample data duly following the procedure communicated by CSO for bringing out the publication "Annual Survey of Industries".

Trainings/supply of required schedules/Manuals

A state level training programme was conducted to Unit Officers & Dy.S.O.'s concerned for ASI 2016-17 and sufficient No. of schedules, manuals and other required material was supplied to the districts. The ASI data of 2015-16 for all the samples allotted to DES was received from the districts and scrutinized and validation is under progress. But, the Unit level data of NSSO surveyed samples is awaited from CSO (IS wing), Kolkata. Pooling of Central and State samples data will be done after receipt of unit level data of Central sample.

The list of 2016-17 selected units has been communicated to the districts and the collection of data is in progress in all the districts.

VI. Socio Economic Survey Division

Andhra Pradesh state has been participating in Socio Economic Surveys (SES) since 14th round (1958) onwards to generate comparable estimates and to pool Central and State sample data to get sub-state level estimates. The surveys are carried out on Socio Economic subjects of national interest like Household Consumer Expenditure, Employment & Unemployment, Unorganized Manufacturing, Trade and other services (excluding construction), Housing conditions, Disability, Health Care and Education, Domestic Tourism etc. Every round covers normally of one year period, which will be divided into 4 sub-rounds of 3 months duration.

A. Sampling Design

The National Sample Survey Office (NSSO) is adopting a multi stage stratified random sampling. The first stage units (FSU) are villages in rural sector and UFS blocks in urban sector, the ultimate stage units are households/enterprises. In the case of large FSUs, one intermediate stage of sampling will be the selection of two hamlet-groups (hgs) / sub-blocks (sbs) for each rural / urban FSU. In case of Rural Sector the district is bifurcated into two or more strata depending upon the size of population, where as for urban sector, strata are formed for each district for all Urban areas except for city/town having more than ten lakh population. Each city or town having more than ten lakh population will constitute separate strata.

B. Allotment of samples and issue of guidelines

Sub round wise samples were allotted to the districts and the detailed guidelines were issued in the beginning of the round. The clarifications/guidelines/instructions were communicated to the field staff, as and when received from NSSO.

C. Field Work

During 2017-18, the field work of 4th Sub Round of NSS 74th Round and 1st, 2nd & 3rd sub rounds of NSS 75th round are completed.

D. Pooling of Central and State sample data of NSS rounds

Andhra Pradesh state doubled its sample size to that of NSSO from NSS 67th round onwards and undertaking the pooling of central and state sample data from NSS 66th round. The draft pooling reports on NSS 66th, 67th and 68th rounds were prepared and published. The Draft Pooling report of NSS 69th round was prepared. The Workshop for states on "Methodology for Poolability and Pooling of NSS data of 71st round was held on 22nd and 23rd February 2018 at Kolkata. The soft ware for pooling was provided by the NSSO to prepare the report and it is under progress.

E. Training Programme: Trainings/workshops Conducted/Attended during the year 2017-18.

- 1.** All India Work shop of Trainers (AIWOT) on NSS 75th round at Udaipur on 13th – 14th April, 2017 was organized by NSSO, FOD, Delhi.
- 2.** One day State Level Training programme on Data entry software package of NSS 74th round to SOs (SES) and Dy.S.Os.
- 3.** Two Regional Training Conferences were organized by the NSSO, for NSS 75th round , i.e at Regional Office, Vijayawada from 20th to 23rd June, 2017 and 20th to 22nd June, 2017 at Kadapa. .
- 4.** State level Training of Trainers on NSS 75th round was organized to all the District level officers i.e SOs (SES) and Dy.S.Os. (SES) on 13th & 14th July, 2017 at DES, Gollapudi, Vijayawada.
- 5.** Center wise Data Processing Conference on NSS 75th round was organized by NSSO, DPD at Nagapur during 7th & 8th November, 2017.
- 6.** All India Pooling work shop held on NSS 71st round at Mahalnobis bhavan, Kolkata during 22nd & 23rd February, 2018.

VII. Price Statistics Division

DES collects prices for various commodities at various time intervals. The information is sent to Commissioner of Civil Supplies, Govt. of Andhra Pradesh and Ministry of Agriculture, GOI.

To avoid time lag in transmission of Price Statistics, **ONLINE system** has been introduced. It has been facilitating to receive all price statistics as per the time schedule and also to generate weekly, monthly, quarterly and annual reports automatically, which resulted in saving time and lot of manpower.

Daily Retail Prices of Six Essential Commodities:

Directorate collects the prices of six Essential commodities viz., Rice, Red gram, Groundnut Oil, Tamarind (with / without seed), Red Chillies (dry) and Onions altogether in 13 grades from 51 Revenue Divisional Head Quarters in the State on daily basis and compiles on daily /weekly/Monthly basis to monitor Price trends.

Weekly Retail Prices of (30) Essential Commodities

The Weekly Retail Prices of 30 essential commodities are arrived from choosing 21 essential commodities from weekly report and 9 essential commodities from daily reports. The daily & weekly prices data is also uploaded to the Hon'ble Chief Minister CORE dashboard from this department

Directorate is communicated the information of all selected centre prices data along with Division/District and State Average to Commissioner, Civil Supplies on daily /monthly basis and Monthly consolidated report to Secretary to Government, Planning Department.

Wholesale Prices of (40) Agricultural Commodities:

Directorate of Economics and Statistics collects and compiles wholesale prices of 40 agricultural commodities on monthly basis (last Friday of the month) with District as a unit and prepare State average wholesale Price report. These prices are used to assess the price trends at wholesale centres.

Wholesale prices of Livestock

Livestock is a sub – sector of Agriculture and contributes around 10.46% to state GVA. The Prices of Milk, Meat and by products such as Head, Legs, Goat hair, Dung, Eggs etc., are required to estimate GVA of Live Stock sector.

Consumer price index numbers for industrial Workers (CPI-IW)

The Consumer Price Index Numbers measure the changes in the retail prices of a specific basket of goods and services, over a period of time. DES collects and compiles CPI-IW every month by obtaining the data from the selected centres in the State on weekly and monthly basis.

On par with Central Series the DE & S, A.P also compiles the CPI-IW with same base year 2001=100 for the following 4 centres and releasing index every month.

- | | |
|--------------------------------|---------------------------|
| 1. Vizianagaram & Chittivalasa | 2. Kakinada & Rajahmundry |
| 3. Jaggiapeta & Miryalaguda | 4. Tirupathi & Renigunta |

The Consumer Price Index Numbers for Industrial Workers for State Series will be disseminated through the Directorate website for wider use.

Building construction cost index

The Prices of the Building Materials are collected quarterly for 14 items from 13 District Head Quarters for Urban and 13 selected Centres for Rural in Andhra Pradesh and the State and District average Prices are sent to the National Building Organisation, GOI, New Delhi along with the wages of the Construction Labour and compiles Building Construction Cost Index numbers with base year 1988-89 for rural and urban centres, separately. These prices are used for compilation of GSDP.

Prices of Agricultural Commodities

The Agricultural prices have enormous economic and political implications. These prices are not only balance between the demand and supply but also affect the inter-sect-oral distribution of income and the rate of capital formation in the farm sector.

The Farm Harvest Prices of 24 Principal Agricultural Commodities from the selected centres are being collected and a consolidated report is being sent regularly to the Department of Agriculture and Cooperation, GOI for both the seasons.

Daily Wages of Agricultural Labour

The Daily Wages of Agricultural Labour are obtained from 44 (specifically selected) centres spread over 13 districts in the State. After consolidating the monthly reports, the Index of Agricultural Wages are compiled and sent to the Department of Agriculture and Co-operation, GOI, New Delhi.

Publication

An annual publication entitled "Prices, Wages and Index Numbers" for the year 2017-18 is brought out with an intention to provide Prices data, wages and related index Numbers released by the Government of India and Directorate at one place.

Trainings

District wise training Programmes are organised during 2017 and imparted training programme to the District officials with an object of explaining the procedure for selection of cluster wise manual workers and also to capture the latest consumption pattern of the manual workers during the survey.

VIII. Social Statistics Division

Social Statistics Division deals with all the matters relating to Official Statistics comprising social, demographic, education, medical, health, human development, availability of facilities, infrastructure, environmental, disaster statistics etc. and also collected the related data from various sources, compiling and releasing the subject-wise publications on regular basis.

The Social Statistics Division brought out the following publications during the year 2017-18.

Statistical Abstract, Andhra Pradesh

This is an Annual Publication releasing since 1956 and the latest issue of Statistical Abstract, Andhra Pradesh, 2017 is 59th in its series. It is the most comprehensive and prestigious publication of the Directorate, serving as an important source of material for statistical time series data of different sectors of Andhra Pradesh Economy. The Publication is having **427 tables** covering under different **chapters (28)** viz, Population, Vital Statistics, Climate, Agricultural & Irrigation, Live Stock, Forests, Industries, Mining, Fuel and Power, Transport, Banks, Prices, Labour Welfare, Education, Judicial, Police and Crime, State Economy for the current financial year along with comprehensive data for the previous years. It also contains comparative statistics of Andhra Pradesh, all India and also for Major States for certain selected indicators.

Districts at a Glance, Andhra Pradesh

The publication of Districts at a Glance, Andhra Pradesh, 2017 consists of **160 tables** in **23 chapters** by covering the District wise information on important sectors by capturing the Socio Economic scenario of Districts in the State. It provides information on Population, Vital Statistics, Rainfall, Land Utilisation, Area, Production & Yields of Principal Crops, Net Area Irrigated, Consumption of Fertilizers, Census of Land Holdings Census of Live Stock & Fishing, Agriculture Machinery & Implements, Education, Medical & Health, Industries, Power Consumption, Communications, Road Length, Banking, Housing, Employee Census, Gross District Domestic Product, Primary Weavers Co-Operative Societies etc.,

Andhra Pradesh Economy in Brief

For the quick over view of the level of development in the State, a pocket size publication "**AP Economy in brief**" is released every year on the 1st January. The objective is to assess the development in the current year corresponding with previous years. This publication contains **59 tables** throwing a broad view over the important Selected Indicators for different sectors of economy covering Demography, State Economy, Public Finance, Agriculture and allied activities, Infrastructure Services, Social Service, Price statistics and Planning.

District Hand Book of Statistics

The publication of District Hand Book of Statistics prepares by the concerned CPOs. In order to ensure the uniformity of proformae, all the tables contained in this publication were standardized and printing was taken up at State Level. The publication contains **23 chapters with 174 tables** relating to the concerned districts. Mandal wise information on Population, Medical & Public Health, Climate, Agriculture, Irrigation, Livestock & Veterinary Services, Fisheries, Forestry, Industries, Mining, Fuel & Power, Transport & Communications, Public Finance, Prices, Employment, Labour & Labour Welfare, Education, Local Bodies, Cooperation, Judicial, Police & Crime, Social Welfare Women & Child Welfare and Miscellaneous are available in these publications.

Gender Statistics

This publication consists of **203 tables** featuring in **8 chapters** revealing the information on Women share in the present scenario in all aspects viz. Population, Health & Family Welfare, Education, Economy & Development, Women's participation in Decision Making, Crimes, Convictions & Police Force, Women & Child Welfare and Miscellaneous.

Statistics for Local Area Planning (SLAP)

The 73rd and 74th amendments of the Indian Constitution has given greater responsibilities and powers to the Gram Panchayats and Nagar Palikas as the three tier Governance offering a new era of opportunity for local planning, Effective implementation and monitoring of various social and economic development Programmes in the country.

The pilot study on “**Collection of Statistics at Village Level**” has been conducted in SPSR Nellore district of Andhra Pradesh State under BSLLD scheme in rural areas with the reference period 2008-09, 2009-10 and 2010-11 in three phases and data uploaded for the year 2010-11 through Area Profiler software.

In view of importance of Village Level Statistics, the Government of A.P. decided to collect the Statistics at Village Level covering all districts in the State from the year 2012-13 onwards under the scheme of **Support for Statistical Strengthening (SSS)**.

All the Departments/Agencies functioning at village/Gram Panchayat/ Mandal level are providing the data on Annual basis. The Tahsildar and MPDO at Mandal level are the coordinating Officers for effective monitoring, supervising and timely collection of data.

The data collected under SLAP is used as inputs for micro level planning at village/panchayat, Mandal and district level.

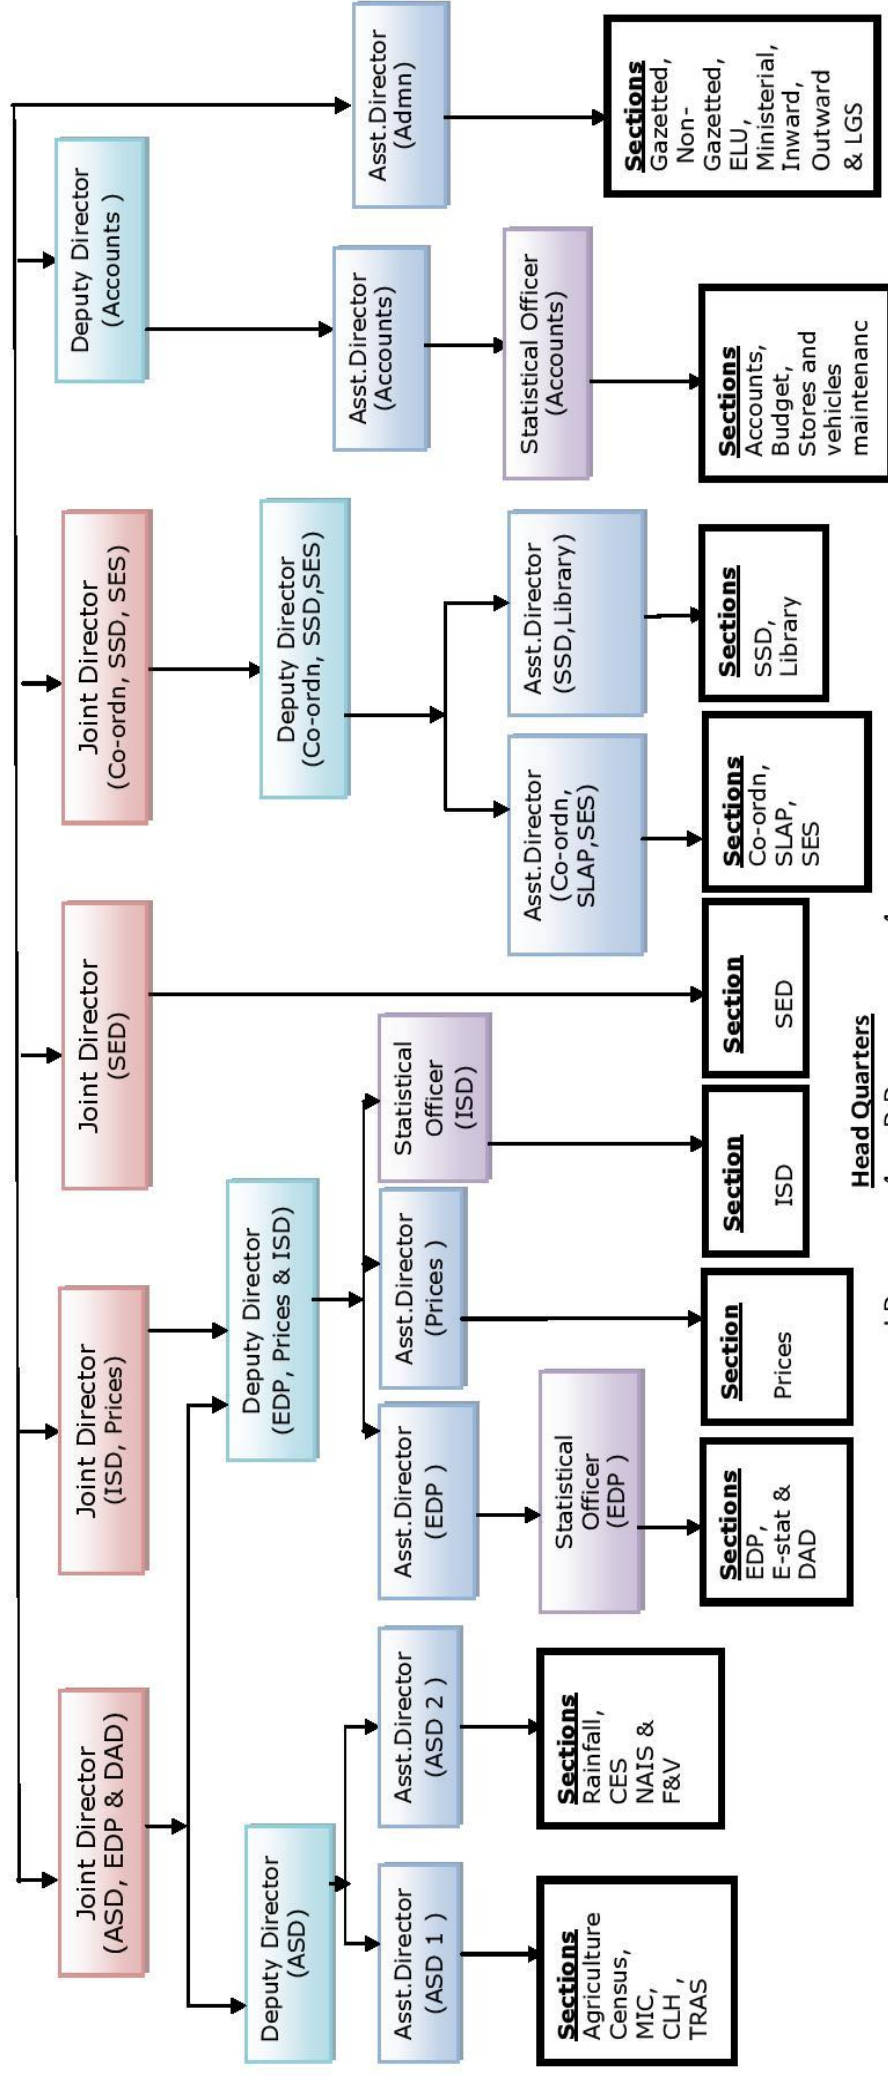

The Government of A.P decided to develop web based online applications for all the activities of Directorate of Economics & Statistics including SLAP to have a reliable, credible and timely data. The web based application has already been developed by Center for Good Governance (CGG) from 2014-15 onwards.

Present Status:

- a. The collection and compilation of SLAP data for the years 2012-13 & 2013-14 was completed and data base is available in DE&S .

- b. The data for the years from 2014-15 to 2016-17 pertaining to 17366 villages consisting of 984 indicators of each village has been verified and updated in the web portal.
- c. The Directorate has also updated the data of all urban nature villages along with 9 urban mandals for the years 2014-15 to 2016-17 and data is available at Directorate
- d. The collection of SLAP data for 2017-18 is in progress.
