Smt. V. Prathima,
Director

Preface

Directorate of Economics and Statistics (DES), being a Nodal Agency is responsible for collection, compilation and analysis of various statistical data sets and provide reliable statistics to the Government for taking decisions at various levels.

In this process, every year DES compiles Annual Administration Report (AAR) to make an assessment of the performance of Department activities. The Annual Administration Report, 2018-19 covers the data pertaining to Rainfall, Agriculture, Yield, Production, Productivity, Annual Survey of Industries, Index Industrial Production, Gross State Domestic Product (GSDP), Socio Economic Survey and Publications brought out during the year etc. This information provides an outlook of the main functions of the department.

I appreciate the efforts made by the DES officials to bring out this Annual Administration Report-2018-19.

Sd/- V.Prathima

Director

Place: Vijayawada

Date: 23-09-2021

Officers & Staff Associated with this Report:

Sri P.Uma Prasad, Joint Director

Sri C.Pandurangadu, Assistant Director

Smt D. Lakshmi Prabha, Deputy Statistical Officer

I. Introduction

Directorate of Economics and Statistics, Andhra Pradesh is responsible for collection, compilation and analysis of data sets and to be used by the Government in taking policy decisions.

The statistical data can be used in many ways such as to present facts in a definite form, facilitates comparisons, guidance in the formulation of suitable policies etc. The Government is mainly depending on statistical interpretations to take policy decisions at different levels.

DES is equipped with data processing division to transmit the data i.e. from field to headquarters. To obtain quality, qualitative and reliable statistics and to monitor various statistics, a web based application has been developed in the Department. The data is being uploaded in the web application on Daily/Weekly/Monthly/Season wise. The web based application is useful for smooth flow of information from Districts to State Headquarters and also to furnish the information to the Government on time.

DES captures the latest technologies such as mobile app in collection of data for Minor Irrigation Census (MIC). Web Portal is also established for monitoring the 6th MIC & Census of water bodies.

Nodal agency

In pursuance of NSC recommendations and also to meet the requirements of India Statistical Strengthening Project (ISSP) initiated by the Ministry of Statistics and Programme Implementation (MOSPI), GOI, the Government of Andhra Pradesh issued a notification declaring DES as the Nodal Agency vide G.O. Ms. 12, Planning (XVIII) Department, dated:12-4-2010 for developing an efficient statistical system and ensuring technical coordination in all matters relating to statistical activities in the State. Directorate of Economics and Statistics is broadly made responsible for (i) Coordination of Statistical activities of various line Departments/ Organizations of the State (ii) Identify the training needs and arrange to conduct training programmes to the Statistical Personnel in line departments at State and Sub-State levels etc.

DES, AP collects various data sets such as primary & secondary. Rainfall, Prices, Area & Yield Statistics, ASI, etc are some of the main data sets being collected by DES on one hand and conducts various surveys/Censuses viz., MIC, Economic Census, SLAP, CLH etc on other hand. DES collects data on season-wise area, Production & Productivity estimates of all major crops every year and compiles the data sets for analysing the results, so as to furnish the information to the Governments at State & Central level. DES, Andhra Pradesh also takes up various publications viz., Statistical Abstract of Andhra Pradesh, Season and Crop Report, Report on Annual Survey of Industries, Hand Book of Statistics, Andhra Pradesh Economy in brief, etc.

The DES, AP has been designated as State Level Authority on the following important subjects.

- (i) State Agricultural Statistics Authority (SASA)
- (ii) State Rainfall Registration Authority (SRRA)
- (iii) State Irrigation Statistics Authority (SISA)

Collection of Statistics Act, 2008

Ministry of Statistics and Programme Implementation (MOSPI), Government of India brought out the Collection of Statistics Act, 2008 (No. 7 of 2009). The Rules have been notified under this Act as the Collection of Statistics Rules, 2011 for implementation in the country.

The Act facilitates the collection of statistics on economic, demographic, social, scientific and environmental aspects and matters connected therewith or incidental thereto, not only from industrial and commercial concerns but also from individuals and households.

For this purpose, the Government of Andhra Pradesh vide G.O.Ms.No.13, Planning (XV) Department, dated: 08-07-2011 designated the Director, DE&S, Govt. of Andhra Pradesh as Nodal Officer for the State.

Functions & Activities of DE&S

DE&S comprises of Headquarters, Chief Planning Offices at District level and field functionaries at Revenue Division and Mandal levels. As mentioned above, DE&S is at

the centre of the statistical system in Andhra Pradesh, carrying out the following statistical activities associated with the official statistical system.

1. Collection, compilation, classification, tabulation, analysis, dissemination and presentation of data on various socio-economic aspects of the State in a systematic manner.
2. Conducting sample surveys/censuses and other ad-hoc field surveys etc., on various socio-economic aspects.
3. Co-ordinating the statistical activities of various departments of the State Government.
4. Organisation of “in service training” to the statistical personnel.
5. Liaison with the statistical organisations of the Government of India and other State Governments.
6. Interaction with statistical agencies at National level, RBI and Research Institutions/Universities and
7. Dissemination of official statistics through periodic publications

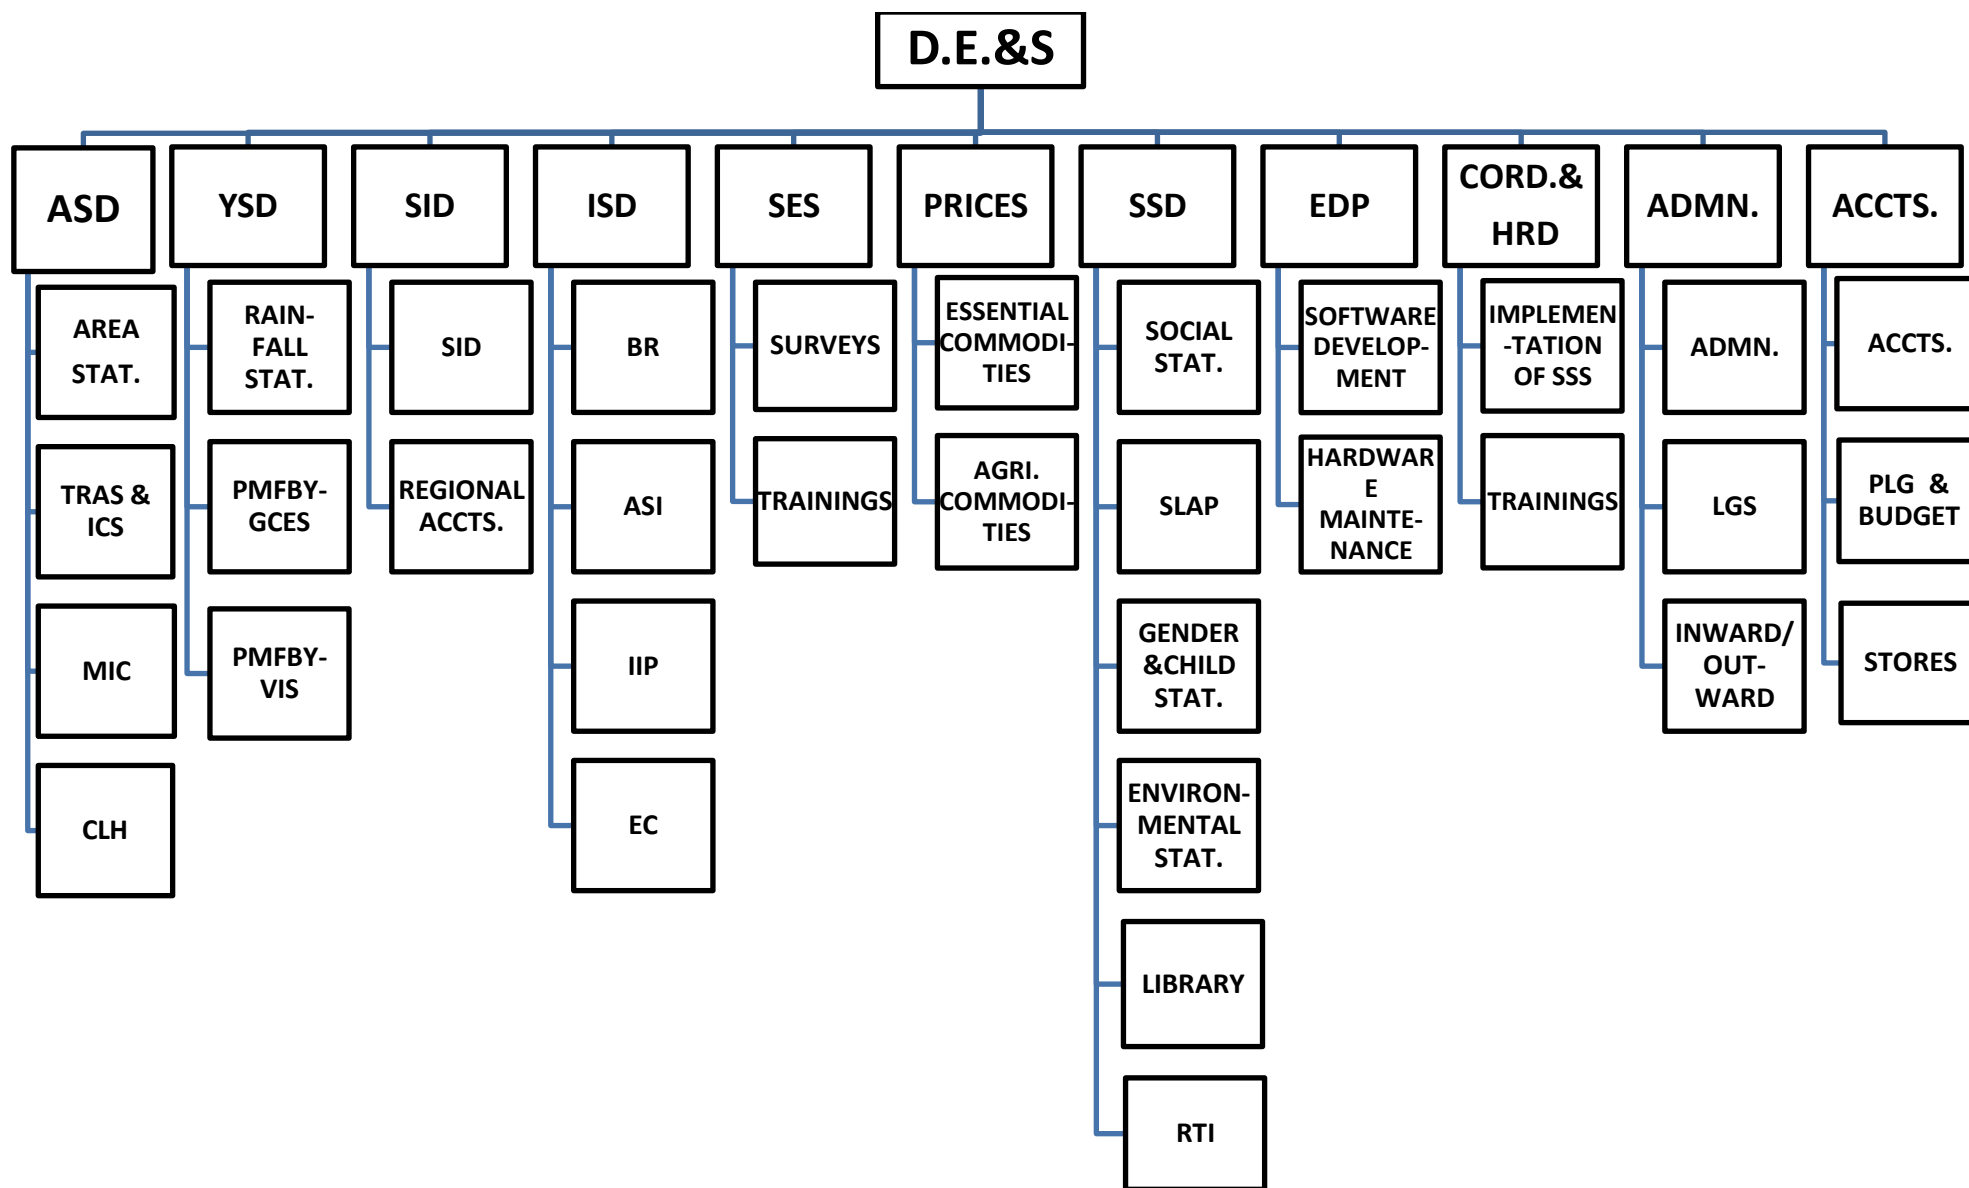

Further, the Director, DE&S is associated with number of committees constituted by various Departments/Agencies, important of them is mentioned below:

- Member-Convener, Standing Committee for Finalization of Consumer Price Index for Industrial Workers (CPIIW)
- Member, State Level Co-ordination Committee on Crop Insurance constituted by Agriculture Department.
- Member, Committee on Statistics of Agriculture and allied sectors.
- Convener of SLCC and Addl. State Agriculture Census Commissioner
- Census Commissioner of MI Schemes

All the functions of DES are grouped into the following technical divisions for administrative convenience and each division is headed by a senior officer in the cadre of Joint Director or Deputy Director.

- | | |
|---|---|
| a. Agricultural Statistics Division (ASD) | b. Yield Statistics Division (YSD) |
| c. State income Division (SID) | d. Industrial Statistics Division (ISD) |
| e. Socio Economic Survey Division (SED) | f. Price Statistics Division |
| g. Social Statistics Division (SSD) | h. Electronic Data Proccession Division (EDP) |
| i. Co-ordination & HRD Division (C&HRD) | j. Administration Division |
| k. Budget, Stores & Accounts Division | |

The above Divisions are further divided into the following Units, each of which is entrusted with specific areas of work headed by an officer in the cadre of Asst. Director/ Statistical Officer.

Organisation set up

There are 13 offices of Chief Planning Officers, one in each District, headed by a Joint Director Cadre officer, designated as Chief Planning Officer with supporting technical staff and administrative assistants are functioning under DES in the State. The principal functions of these offices are of two fold, (i) Assisting the district administration to review all the developmental activities taken up in the District and also monitoring the implementation of MPLADS, CDP, 20 Point Programme, Prajapatham and other flagship programmes of the Government being implemented through the Planning Department, and (ii) Statistical activities of the Directorate of Economics Statistics (DE&S).

There are 51 Revenue Divisions in the State and at the Division level, there is one statistical functionary viz., Divisional Deputy Statistical Officer (Dy.S.O), located in the Office of the Revenue Divisional Officer (RDO) and attends the compilation of various Statistical reports at Divisional level and also supervises the field work of Mandal Assistant Statistical Officers of respective Divisions and submits consolidated Divisional reports to the Chief Planning Officer. There are 679 mandals in the State. One statistical field functionary i.e., Assistant Statistical Officer (ASO) sanctioned to each mandal is located in Tahsildar's office and attends to all statistical item of works at mandal level.

All the officers and staff working in DE&S are recruited by Andhra Pradesh Public Service Commission (APPSC) under common cadre of A.P. Economic and Statistical Service. The total cadre strength of the department is 1344 comprising of 123 Officers, 1109 Non-Gazetted officers and 112 Class IV employees. The details are given in the following table:

Sl. No	Designation	Office of the DE&S	Office of the Chief Planning Officers	Planning and Other Offices	Vacant	Total
1	Director	1	0	2	0	3
2	Joint Director	5	13	3	0	21

TOTAL		136	876	63	269	1344

Line Departments

The core activities of DE&S are mainly estimation of GSDP and other Macro Aggregates. For the purpose of estimation of GSDP, DE&S needs statistical data from various line departments. Certain posts have been sanctioned in line departments to look after the statistical needs of these departments and to furnish the statistical data to DE&S for estimation of GSDP. The posts have been created in 21 line departments and DE&S personnel have been posted to work in those departments. The Statistical posts sanctioned position in line departments is given below:

Sl.No	Name of the Department	Staff Sanctioned						
		JD	DD	AD	SO	DySO	ASO	Total
1	Commissioner of Rural Development					1	1	2
2	Commission for B.Cs,A.P.		1					1
3	Commissioner of Relief Secretariat		1			1		2
4	Commissioner Commercial Taxes		1					1
5	MA & UD ,A.P.Secretariat			1	1	1		3
6	Commissioner I & CAD Dept.			1		1	2	4
7	Commissioner of Fisheries Department			1		1	1	3
8	Commissioner of Social Welfare							
	Secretariat				1			1
	Head Quarters					3	2	5
9	Commissioner & Director of Municipal Administration				1		1	2
10	Commissioner Labour				1	1		2
11	Commissioner of Sugars					1	1	2
12	Commissioner of B.C. Welfare				1	1		2
13	Principal Conservation of Forests					2		2
14	Commissioner of Women & Child Welfare Department					1		1
15	Commissioner of Higher Education					1		1
16	Director of Factories					1		1
17	APPSC					1		1
18	Director of Intermediate Education						1	1
19	Commissioner of Collegiate Education						1	1
20	Director of School Education						5	5
21	EFS & T Department A.P Secretariat					1		1
	TOTAL	0	3	3	5	18	15	44

Promotions:

During the year 2018-19 the following promotions are given both in Gazetted and Non- Gazetted cadres.

Sl.No.	Cadre	No.of Promotions
1.	Joint Directors	06
2.	Deputy Directors	10
3.	Assistant Directors	11
4.	Statistical Officers	14
5.	Deputy Statistical Officers	54
6.	Superintendents	01
7	Senior Assistants	04
	Total	100

Retirements:

During the calendar year 2019, the following employees were retired from Government service on attaining the age of superannuation.

Sl.No.	Cadre	No.of Retirements
1.	Director	01
2.	Joint Directors	04
3.	Deputy Directors	04
4.	Assistant Directors	03
5.	Statistical Officers	05
6.	Deputy Statistical Officers	08
7.	Assistant Statistical Officers	03
8.	Superintendents	06
9	Senior Assistants	02
10.	Junior Assistants	02
11.	Typists	01
	Total	39

Accounts, Stores & Budget Wing

The main functions of **Accounts & Stores Wing** are payment of salaries, processing of pension papers, medical reimbursement proposals & providing loans and advances, maintenance of office building, supply of stationery to all the divisions etc.

Budget Wing: The main function of budget section is preparation of Budget Estimates for each financial year apart from preparation of Number statements, submission of proposals to Government for release of Budget Release Orders and Administration Sanction Orders etc.

Budget Allocated to Each Agency including Plans etc.

(in Rs.)

Human Resource Development (HRD)

Human resource development helps organizations to develop their workforce through employee training and career development, which improves organizational effectiveness and performance. DES, AP conducts various training programmes to enrich knowledge levels of statistical fraternity from time to time and also deputed Officers & Staff members to various prestigious institutions.

Smt. K.Sowjanya, Deputy Director, DES & Smt.P.Bhanumathi, Dy.S.O. DES participated Training of Trainers (TOT) Programme on “Index Numbers & Price Statistics” from 23.04.2018 to 27.04.2018 at National Statistical System Training Academy (NSSTA), Greater Noida, Uttara Pradesh.

During the year 2018-19, DES, AP organized 4 Weeks Induction Training Programme to the newly recruited Assistant Directors and Assistant Statistical Officers at APHRDI, Bapatla from 12.11.2018 to 08.12.2018 duly covering the subjects pertaining to Directorate as well Planning Department.

Electronic Data Processing (EDP) Division:

Directorate is well equipped with the servers and desktops to cater the needs of department in the field of Information Technology. All Systems in the Directorate are well connected with the Local Area Network. Through APSWAN connectivity, all 13 districts in the State are connected to the Directorate.

The EDP division develops the necessary Web based Software for all the activities of the department and also for various censuses and surveys being conducted by the department. Necessary training will be imparted to the district staff for computerization of data at district level. The EDP division is also responsible for Maintenance of Hardware, Software and Networking such as E-Office, E-Stats, DES website, Bio-Metric/Aadhar attendance, CM Core Dash Board (RTGS), Updation of GMIS software, Maintenance of Servers, Procurement of Hardware etc pertaining to the DES.

The EDP officials attended certain trainings viz., (i) All India Tabulation Workshops at NSSO, Delhi, (ii) Digitilisation of Phase-2,Phase-3 of CLH at Coimbatore & (iii) H-Schedules finalization at Tiruvaantapuram.

Right to Information Act, 2005

All Right to Information applications/Appeals are normally received in the Right to Information section and then forwarded to the concerned Chief Planning Officers in the Districts and the sections in Directorate for their disposal.

During the year 2018-19, a total of 300 applications and 3 appeals are received and disposed.

Library

Directorate of Economics and Statistics is equipped with a beautiful technical library named P.C.Mahalanobis Library Hall, containing various books, publications, journals, magazines etc. In fact, the Library unit was established in DE&S during the composite Nizam's State of Hyderabad. Various publications brought out based on primary data collected through Mandal ASOs of all the districts have been kept for sale as well as for information to the public, besides various reference books in the library.

The information/data available is very much useful to the Research Scholars, representatives of NGOs, planners, policy makers etc.

II. Agricultural Statistics Division

DES is the State Agricultural Statistics Authority (SASA). The main functions of the Division are :

A. Rainfall: Data on Rainfall Statistics assume greater importance and the demand for the rainfall data is ever increasing and Director, DES is the State Rainfall Registration Authority. The rain water collected by the gauge will be measured everyday at 8.30 A.M in all 670 Revenue Rainauge Stations installed at Mandal Headquarters in the State. In addition, 1462 Automatic Weather Stations (AWS) and 414 Automatic Rainauge Stations (ARGs) are functioning across the State. In case of heavy rains, all the measurements taken up during the previous 24 hours will be summed up at 8.30 hours and treated as the rainfall of the particular day.

The consolidated daily rainfall data of Revenue gauges is communicated to APSDPS to integrate with AWS rainfall data. The integrated rainfall data is utilized for all official purposes. DES consolidated and submitted (i) Daily rainfall report (ii) Weekly rainfall report (iii) Weekly Status Report (iv) Dry spell reports and (v) Monthly rainfall report to Government.

The Chief Planning Officers at Districts inspect the Rainauge stations located at Mandal Headquarters and furnish the status report to DES every year.

B. Season and Crop conditions: Season and Crop condition report was prepared duly obtaining reports from the Districts on Rainfall, Season-wise water levels, agricultural operations, condition of standing crops, harvest operations and crop-wise areas of principal crops and furnished to concerned departments.

C. Advance Estimates: Four Advance Estimates were prepared, prior to completion of Agricultural Census, on Area, Yield and Production and furnished to Ministry of Agriculture, Government of India for the purpose of planning and taking policy decisions.

D. Timely Reporting of Agricultural Statistics (TRAS): Area enumeration was taken up in 3438 villages of 13 Districts under TRAS to provide timely and reliable estimates of area under important crops for both Kharif & Rabi Seasons. The area reported in the Card Nos. I, II, III & IV was verified at Mandal & District level and ratio estimates for each

mandal were prepared at State level. The estimated area under each crop was furnished to Ministry of Agriculture, Government of India.

E. Improvement of Crop Statistics (ICS): The main objective of the Scheme is to suggest remedial measures to improve the quality and reliability of area and yield statistics. A.S 1.0 (Sample Size: 350) & 1.1 (Sample Size: 220) Schedules were canvassed by ASOs for State Samples and the field staff of NSSO for central samples. Harvest stage supervision was conducted by both DES & NSSO Officials on 50: 50 basis to improve the quality and reliability of yield statistics. 460 villages and 220 villages were selected for supervision for the planned villages to conduct C.C. Experiments both for Kharif & Rabi Seasons.

F. Agricultural Census: It is a complete enumeration of area under different crops, different categories of Land Uses and different sources of irrigation etc. The area statistics at village level is collected through adangals by the VROs in both the seasons i.e. Kharif & Rabi. These area figures are being reconciled at mandal and district level with respective departmental figures of Agriculture, Horticulture, Irrigation and other departments concerned. After completion of enumeration and compilation of area figures at different levels in the District, at State level, the DES compiles and releases the publications (i) Agricultural Census at a Glance and (ii) Season and Crop Report of Andhra Pradesh on yearly basis. Besides these, uploading of Agricultural Statistics in GOI website, Preparation of crop-wise normal areas for both Kharif and Rabi seasons and index numbers of agricultural production were also done.

G. 10th Agriculture Census of Land Holdings 2015-16: This census is taken up in three phases. The information is captured from Adangals on number of area of operational holdings, social groups (SC, ST and others), Gender wise information in phase –I. The table-I data was sent to GOI along with district wise reasons for variations in the data when compared to previous census 2010-11. Under Phase-II, detailed information like distribution of holdings according to tenancy status, area under different land uses and area under non-horticulture and horticulture crops was collected for 3202 TRAS villages of 2015-16. Field work and data entry were completed and data was submitted to GOI and provisional tables were received from GOI. For the purpose of conduct of Phase-III survey i.e Input Survey with reference year 2016-17, 1234 villages were selected on

random basis and communicated to districts for conduct of detailed survey. Field work & data entry work were completed and data was submitted to GOI.

H. 6th Minor Irrigation Census and Census of Water Bodies: 6th MIC with reference year 2017-18 is being taken up to canvass five schedules viz., (i) Village Schedules (ii) urban Schedule (iii) Ground Water Scheme Schedule (iv) Surface water Scheme Schedule and (v) Water body Schedule, to build sound and reliable database in the minor irrigation sector. The data will be used for estimating the availability of ground water and formulation of realistic plan for water resources development. VRO/VRA is the enumerator in rural and urban areas and the supervision is entrusted to higher supervisory level of the field functionary at mandal level. The data is being entered directly into tab/mobile after canvassing & due verification by the enumerator. Web portal is established <http://aproms.ap.gov.in/mic6/dashboard> for monitoring the 6th MIC & Census of water bodies. The field work of 6th MIC and CWB is commenced on 15-02-2019 through tab/mobile application and the work is under progress.

III. Yield Statistics Division

A. Crop Estimation Surveys on agricultural crops: The objective of crop estimation survey is to obtain the estimates of average yield per hectare (productivity) and total production of principal crops both at district and state levels by conducting crop cutting experiments.

DES organized crop cutting experiments for 11 food crops 11 non-food crops on the random sampling basis for the year 2018-19.

Planning and Designing: The procedure and techniques involved in the survey was finalized based on the results of pilot surveys carried out by the Indian Agricultural Statistics Research Institute (IASRI), New Delhi. The mandal wise and crop wise sample size of the plan for the year 2018-19 was communicated to districts for village wise and agency wise planning for conduct of C.C.Experiments. Crop cutting experiments were planning and conducted for 19 crops in Kharif season and 14 crops in Rabi season during the year 2018-19.

B. NON CC: Yield estimation through oral enquiry method: 82 agricultural and horticultural crops yield, production and prices were estimated under Non-CC method in both kharif and rabi seasons. 17 crops are covered in both kharif & rabi seasons. Selection of the crops is based on the highest area of the crop in that particular district/mandal/village during the previous year. The area and production of the crops are being collected from the farmers on oral enquiry method and average yield of that village will be arrived. At mandal level, the average yields are worked out on simple average basis but the district average yield is estimated by weighted average method taking respective mandal wise areas as weights.

C. Village Insurance Scheme: As instructed by GOI, New Delhi, Pradhana Mantri Fasal Bhima Yojana (PMFBY) was implemented in all 13 districts during the year 2018-19. The losses due to preventive/late sowings, localised risks like hailstorm, earth quake and post-harvest losses will be covered. One predominant crop is selected for “**Village made as Insurance Unit**”. 29338 experiments were planned in kharif season and 15174 experiments in rabi season during the year 2018-19.

The methodology adopted for conduct of C.C experiments under this scheme is similar as regular C.C. experiments. The primary workers for this scheme are A.E.Os & MPEOs of Agriculture Department and part time primary workers appointed purely on temporary basis. The technical work of the primary workers was monitored and supervised by ASOs, Mandal Agriculture Officer and part time supervisors at mandal level.

Senior Officers from DES, Agriculture Department & Insurance companies have supervised the experiments at harvest stage. Yield results are monitored daily through online from DES. The unit wise estimates were generated and furnished to Department of Agriculture and Insurance companies before the cut off dates.

A total no.of 57100 farmers in kharif season with an amount of Rs.20718.00 Lakhs and 56318 farmers in rabi season with an amount of Rs.11612.73 Lakhs were benefitted during the year 2017-18.

IV. State Income Division

The State Domestic Product (SDP) commonly known as State Income is one of the important indicators to measure the economic development of the state.

The State Domestic Product is defined as the aggregate of the economic value of all goods and services produced within the geographical boundaries of the state, counted without duplication during a specified period of time, usually a year. These estimates are prepared both at Current and Constant (2011-12) prices.

State Economy Division (SED) compiles the State/District Domestic Product, estimates every year by following the methodology specified in System of National Accounts (SNA) and as suggested by the Central Statistics Office, New Delhi to assess the progress of economy by the policy makers and Administrators.

For the purpose of estimation of State Domestic Product, the state economy is broadly classified into Agriculture, Industry and Services sectors.

The estimates of State Domestic Product (SDP) are prepared and released in four stages namely, Advanced Estimates (AE), First Revised Estimates (FRE), Second Revised Estimates (SRE) and Third Revised Estimates (TRE) to meet the requirements of the Government, policy makers and researchers.

In addition to the above, the State Economy Division releases the quarterly estimates for 1st & 2nd quarters in the months of September and December respectively on par with CSO .

Advance Estimates (AE) of 2018-19 At Constant (2011-12) Prices

DES compiled and released the Advance Estimates of GSDP for the Year 2018-19 at Constant (2011-12) Prices in the month of March, 2019. Agriculture & Horticulture production data, production data on milk, meat & egg, production estimates of fisheries, Production data for mining & quarrying & Vehicles data were furnished by Horticulture, Animal Husbandry, Fisheries, Mines Geology and Transport Departments respectively. Index of Industrial Production (IIP), Sales Tax, analysis of Budget and relevant indicators were supplied by CSO. These are all used to compile the Advance Estimates. The Performance of the corporate sector during April-December 2018 was also been taken into account while compiling advance estimates. The Trends of the All India Gross Value

Added Estimates as per methodology was taken into consideration in certain sectors and adopted appropriate indicators wherever the data sets are not available at State level.

The Advance Estimates at **Current Prices** are derived by the **Implicit Price Deflator (IPD)** method at sectoral level from the relevant price indices as per the methodology provided by the CSO.

GVA AND GSDP OF 2018-19 A.E AT CONSTANT (2011-12) PRICES

Andhra Pradesh

All India

(Rs. in Crores)

Sector	2016-17 (SRE)	2017-18 (FRE)	2018-19 (AE)	2017-18 (FRE)	2018-19 (AE)

A.E-Advance Estimates, FRE-First Revised Estimates, SRE-Second Revised Estimates

- ❖ **Gross State Domestic Product (GSDP)** at Constant (2011-12) prices for the year 2018-19(AE) is estimated at **Rs.680332 Crore** registering an impressive growth of **11.02%** whereas the **All India** registered a GDP growth of **7.0%** only. The gap is about 4%.

- ❖ Gross Value Added (GVA) at Constant (2011-12) Prices is estimated at **Rs.614665 crore** in **2018-19** registering growth of **10.77 percent**, whereas the **Gol** registered a GVA growth of **6.8%** only. The gap is about 4.0%.
- ❖ The Agriculture & Allied Sectors registered a growth rate of **10.78%** in 2018-19 at Constant (2011-12) Prices with a GVA of **Rs. 181074 crore** as against the previous year (i.e. 2017-18) growth rate of **17.25%**, whereas **Gol** registered a growth of **2.7%** in 2018-19.
- ❖ The GVA of the **Industry Sector** is **Rs.165416 crore** with an impressive double digit growth rate of **10.24%** in 2018-19 over the previous year.
- ❖ The GVA of the Services Sector is estimated at **Rs.268176 crore** with a significant growth rate of **11.09%** in 2018-19 over the previous year.
- ❖ The Per Capita Income (NSDP) of Andhra Pradesh during 2018-19 at current prices is estimated at **Rs.164025** as compared to **Rs. 143935** in 2017-18(FRE).

The Per Capita Income (NNI) of All India is **Rs.126699**.

Preparation of FRBM Frame Work :

The GSDP estimates, 2018-19 are submitted to the Finance Department to prepare a macro economic framework statement and fiscal policy statement for placing before the Legislature at the time of Budget sessions as part of Andhra Pradesh Fiscal Responsibility and Budget Management (APFRBM) Act 2005.

The estimates are also submitted to the Planning Department to include in the Socio Economic Survey report for placing before the Legislature at the time of Budget session.

District Domestic Product (District Income):

District Domestic Product (DDP) estimates and Growth Engines at state level compiles every year. District Income is defined as the sum total of economic value of goods and services produced within the geographical boundaries of the district. The District GVA has been compiled using the district wise production & prices and relevant indicators wherever the datasets are not available.

A Publication on “Performance Appraisal and District Economic Scenario-2017-18(AE)” was released during the Collectors’ conference on 8th - 9th May, 2018.

Mandal Domestic Product Estimates

To assess the economic status at sub-district level and to know the sector wise development of mandals, the MDP estimates are being compiled in the new series with 2011-12 as base year from 2015-16 at current prices. Publication on “Mandal Domestic Product for the years 2016-17 & 2017-18” were released during the year 2018-19.

Constituency Domestic Product Estimates

The Constituency Domestic Product (CDP) Estimates are also been prepared to provide valuable inputs to have a glimpse of the economic status of constituency and standard living of the people and to focus on potential areas for speedy development of the constituency. Publication on “Constituency Domestic Product for the years 2016-17 & 2017-18” were released during the year 2018-19.

Key Growth Engines in the Economy

The key growth engines in the Agriculture, Industry & Services sectors which are the major contributing items in the state income have been identified. The Sector Wise Growth Engines of the state and all the districts have been prepared in the New Series with 2011-12 as base year so as to depict the true picture to the policy makers and to launch new projects.

Budget Analysis

The State Economy Division collects State Government budget documents from AP Finance Department and analyses the same as per economic cum purpose classification to arrive estimates of Government contribution to GSDP/GFCF. The Budget Document 2019-2020 was analysed and the sector wise GVA was estimated and incorporated in preparation of GSDP estimates.

Analysis of Local Body Accounts:

The division collects annual accounts from all local bodies (rural and urban) including Urban development authorities. The main objective of the analysis of annual accounts is to capture the contribution of the Public sector transactions in the State Income and Capital Formation. The Annual Accounts of all 12918 Local Bodies were collected for the year 2017-18 and analysed through the software developed by CGG. The Sector GVA/GFCF was estimated and incorporated in preparation of GSDP estimates

Non Departmental Enterprises (NDEs)

The annual accounts of 75 State NDEs for the year 2017-18 were collected and analysed the accounts through the software provided by CSO. Sector wise GVA/GFCF is estimated and incorporated the same in preparation of GSDP estimates.

Inter State comparison of estimates:

“Interstate comparison on GSDP from 2011-12 to 2017-18(AE)”, the analysis of the trends of GSDP during the period 2011-12 to 2017-18(AE) both at Current and Constant (2011-12) Prices were prepared.

Joint Discussions on the Comparable Estimates in finalization of the GSDP Estimates at CSO, New Delhi.

Central Statistics Office, New Delhi organized Joint discussions on Comparable Estimates of State Domestic Product in the New Series with Base Year 2011-12 for the years 2015-16 and 2016-17 with the officials of National Accounts Division and the representative of States/ UTs to reconcile the differences, if any in the GSDP estimates prepared by DE&S's and CSO in the month of May 2018 at New Delhi.

Director, DE&S, Officers & Staff of SED participated the Joint Discussions on the comparable estimates at CSO, New Delhi.

Trainings & Workshops

5 days Regional Training Workshop on State Income and related aggregates held during **10-14th December, 2018** at Yashada, Pune. The Officials from State Economy Division participated in the workshop.

Thematic Paper on Electricity, Gas, Water Supply, Remediation and Other Utility Services :

As suggested by sub-national accounts committee on National Accounts, CSO requested the DES, AP to submit thematic paper on Electricity, Gas, Water Supply, Remediation and Other Utility Services sector for improvement in the estimates of the GSDP in the sector during the forthcoming revision of the base year. The Thematic paper on the sector was prepared and submitted to the CSO.

V. Industrial Statistics Division

A. Index of Industrial Production

Comparison of economic performance over a time is a key factor in economic analysis and a fundamental requirement for policy making. Short-term indicators play an important role in this context by providing such comparison indicators. Among these short-term indicators, the Index of Industrial Production (IIP) is one of the most well known and well-used indicators. The IIP measures volume of changes in the production of an economy and therefore provides a measurement that is free from influences of price changes.

IIP is an abstract number, the magnitude of which represents the status of production in the industrial sector for a given period of time when compared to a reference period of time. The IIP is a short-term indicator of industrial growth till the actual results from Annual Survey of Industries (ASI) and National Accounts Statistics. This indicator is of paramount importance to the Government for policy planning purposes and is also being extensively used by various organizations including Industrial Associations, Research Institutes and Academicians.

Coverage

The present Index of Industrial Production covers the Mining, Electricity and Manufacturing sectors only.

The compilation of IIP starts with the collection of basic production data relating to the items selected in the item basket. The basic production data are then combined using weights to produce data for the 3-digit class of NIC-2008. The subsequent upper levels, above the 3-digit group, of IIP are constructed by combining the lower levels using weights. That is, 3-digit NIC group is combined to form 2-digit NIC divisions, 2-digit NIC divisions are combined to form 1-digit NIC sections (Mining, Manufacturing and Electricity) and finally, these sections are combined to form the general Index.

The base year was shifted from 2004-05 to 2011-12. Index of Industrial Production of AP & All India was released on monthly basis during the year 2018-19.

B. Annual Survey of Industries (ASI):

The National Sample Survey Office (NSSO), Government of India is conducting Annual Survey of Industries (ASI) in the State for every year. NSSO collects the data of factories having 100 or more workers and all units having less than or equal to 4 units in a district in the same 3 digit NIC code under Census Scheme. NSSO also covers certain selected units with less than 100 workers under Sample Scheme in which an equal No. of selected units is canvassed by Directorate of Economics & Statistics (DES). It collects the selected sample unit's data in the prescribed schedule communicated by CSO (IS wing), Kolkata. ASI covers factories registered under section 2m (i) and 2m (ii) of the Factories Act, 1948 employing 10 or more workers with power and 20 or more workers without power respectively.

The ASI has been designed to obtain comprehensive and detailed data to achieve the following objectives viz.,

- a) Estimation of the contribution of manufacturing industries as a whole and of each type of industry to the State Income.
- b) Systematic study of the structure of industry as a whole and each type of industry.
- c) To analyze the various factors influencing industries in the State.
- d) Construction of comprehensive, factual and systematic basis for formulation of policy.

The ASI schedule consists of Part-I and Part-II. The details of data on Assets & Liabilities, Employment and Labour cost, receipts, expenses, Input items, Products and By-products manufactured etc., are collected in Part-I and Part-II. It is exclusively designed for Labour Bureau purpose and collects data of labour statistics viz., working days, mandays worked, absenteeism, labour turnover, man- hours worked etc.

The Central Statistics Office (CSO, IS wing), Government of India furnishes the unit level data of both census and sample units surveyed by NSSO for pooling purpose. Pooling of central and state level ASI data for publishing district level estimates is an important

activity that needs to be performed by the state. **All the census and sample units canvassed by NSSO and DES are treated as the Pooled sample for the state.** The State and district level values of various parameters of Industrial sector are estimated by taking into account **pooled sample data** duly following the procedure communicated by CSO for bringing out “**Annual Survey of Industries**” publication.

The DES has been participating in the survey since 2003-04 along with NSSO (FOD). The NSSO (FOD) collects data for Central Samples and Directorate of Economics & Statistics collects the Samples data as per allocation made by CSO (IS) wing.

C.7th Economic Census :

Government of India has forward to put in place, a new model of data collection for conduct of 7th Economic Census through an out sourcing agency CSC (Common Service Centre e-Governance Services Limited) network for ensuring higher quality of data, using an advanced ICT (information & Communication Technology) tools & applications, using state-of-the-art ICT platform that would facilitate Geo-code embedded data collection on mobile devises, real time data validation & scrutiny, monitoring & supervision Using interactive MIS dashboards for finalisation & dissemination of results of 7th Economic Census.

Objectives and coverage of 7th EC

- ❖ Nation-wide Dynamic Statistical Business Register as per international practices adopted by developing countries and in line with the United Nations Statistics Division (UNSD) recommendations.
- ❖ Detailed information on economic variables, activity-wise of all the non-agricultural establishments of the country including its distribution at all India, State, District, Village/Ward levels for comprehensive analysis of the structure of the economy.
- ❖ Information on establishments registered under MSME Development Act, their assets and other economic criteria.

- ❖ Information on number of workers working in establishments, activity and area wise
- ❖ List of all establishments tagged by geographical location up to village /ward level for local level planning purposed.

Stake Holders in 7th EC:

MOSPI, Central Statistics Office (CSO), Economic Statistics Division is the Nodal Division for conduct of 7th EC. NSSO (FOD), MoSPI –field organisation will assist in capacity building of CSC man power as well as sample physical inspection of CSC field work.

State Government and Central Ministries Provide central/state/sub state level enterprise registers and assist MoSPI in sample physical inspection of CSC fieldwork.

Release of results:

The results of 7th EC are proposed to be decentralized to the local authorities under which MoSPI will provide authorization for dissemination of provisional results as per plan given below:

- Village/ urban ward level – 1 week after data collection
- Taluka level – 1 month
- District level – 2 months
- State level – 3 months (after vetting from MoSPI)

Reports and tables at national/ sub-national levels will be generated through the software based on pre-defined templates for release of Final reports.

VI. Socio Economic Survey Division

Andhra Pradesh state has been participating in Socio Economic Surveys (SES) from 14th round (1958) onwards to generate comparable estimates, to pool Central and State sample data to get sub-state level estimates. The surveys are carried out on Socio Economic subjects of national interest like Household Consumer Expenditure, Employment & Unemployment, Unorganized Manufacturing, Trade and other services (excluding construction), Housing conditions, Disability, Health Care and Education, Domestic Tourism etc. Every round covers normally of one year period, which will be divided into 4 sub-rounds of 3 months duration.

Sampling Design:

The National Statistical Office (NSO) previously known as National Sample Survey Office (NSSO) has been adopting a multi stage stratified random sampling. The first stage units (FSU) are villages in rural sector and UFS blocks in urban sector, the ultimate stage units are households/enterprises. The NSSO divided the State into Regions by grouping contiguous districts based on population density and cropping pattern. In case of Rural Sector the district is bifurcated into two or more strata depending upon the size of population, where as for urban sector, strata are formed for each district for all Urban areas except for city/town having more than ten lakh population. Each city or town having more than ten lakh population will constitute separate strata. In NSS 75th 76th and 77th rounds, 2011 population census villages are used for Rural and Urban Frame Survey (UFS) blocks are used for Urban areas.

Allotment of samples and issue of guidelines:

The samples were allotted sub round wise to the districts and the detailed guidelines were issued in the beginning of the round and as and when clarification on guidelines / instructions received from NSSO, the same was communicated to the field staff from time to time.

Field Work:

During 2018-19, the field work of 4th Sub Round of NSS 75th Round and two sub rounds of NSS 76th round were completed. The 1st sub round of Visit-I of NSS 77th round is under progress.

Pooling of Central and State sample data of NSS rounds:

Andhra Pradesh state has undertaken the pooling of central and state sample data from NSS 66th round. The draft pooling reports on NSS 66th, 67th and 68th rounds were published. The Draft Pooling report of NSS 69th round was completed. The All India Pooling Workshop for States on NSS 72nd round State and Central Sample data was conducted at Mahalanobis Bhavan, Kolkata during 19th and 20th September, 2018. The Methodology for testing of poolability and pooling of NSS Central and State Sample Data on NSS 73rd round was conducted on 14th & 15th March, 2019 at Kolkata. The soft ware for pooling for NSS 72nd & 73rd rounds was provided by the NSSO to prepare the report and it is under progress.

Training Programmes/workshops:

During the year 2018-19, the following Training Programmes / Workshops were covered:

1. All India Work shop of Trainers (AIWOT) on NSS 76th round at Hyderabad on 5th – 6th April, 2018 was organized by NSSO, FOD, Delhi. Director, Joint Director, Deputy Director, Assistant Director and one Dy. Statistical Officer (SES) of DES attended the AIWOT.
2. Refresher Zonal training programmes were conducted in 4 centers i.e., at Visakhapatnam on 16.4.2018, Eluru on 18.4.2018, at Ananthapuramu on 24.4.2018 and at Nellore on 26.4.2018 to the all concerned S.O., Dy.SOs and ASOs on NSS 75th round.
3. Regional Training Camp was organized by the AP Regional Office (SE), NSSO on 19th – 21st June, 2018 at Vijayawada. The Joint Director, Deputy Director, one Dy.SO and two ASOs of SES Division attended the conference.
4. Regional Training Camp was organized by the AP Regional Office (S), NSSO on 20th – 22nd June, 2018 at Kadapa. The Assistant Director and one Dy.SO of SES Division attended the conference.

5. State level Training of Trainers on NSS 76th round was organized at DES, Gollapudi, Vijayawada to the SOs (SES) and Dy.S.Os. (SES) of all Districts on 24th July, 2018.
6. All India Pooling work shop held on NSS 72nd round at Mahalnobis bhavan, Kolkata during 19th & 20th September, 2018. Statistical Officer (EDP) & Dy. SO of SES, DES attended the work shop.
7. All India Work shop of Trainers (AIWOT) on NSS 77th round on 27th & 28th September, 2018 at Guwahati was organized by NSSO, FOD, Delhi. Director, Deputy Director and Assistant Director of DES attended the AIWOT.
8. Data entry Training on NSS 76th round was organized at DES, Gollapudi, Vijayawada to the SOs (SES) and Dy.S.Os. (SES) of all Districts on 1st November, 2018.
9. All India Pooling work shop was held on NSS 73rd round at Mahalnobis bhavan, Kolkata during 14th & 15th March, 2019. Statistical Officer (EDP) attended the work shop.

VII. Price Statistics Division

DES collects prices for various commodities at various time intervals. The information is sent to Commissioner of Civil Supplies, Government of Andhra Pradesh and Ministry of Agriculture, GOI.

To avoid time lag in transmission of Price Statistics, ONLINE System has been introduced. It has been facilitating to receive all price statistics as per the time schedule and also to generate weekly, monthly, quarterly and annual reports automatically, which resulted in saving time and lot of man power.

Daily Retail Prices of Six Essential Commodities:

Directorate collects the prices of six Essential commodities viz., Rice, Red gram, Groundnut Oil, Tamarind (with / without seed), Red Chillies (dry) and Onions altogether in 13 grades from 51 Revenue Divisional Head Quarters in the State on daily basis and compiles on daily /weekly/Monthly basis to monitor Price trends.

Directorate is communicated the information of all selected centre prices data along with Division/District and State Average to Commissioner, Civil Supplies on daily basis & Monthly consolidated report of daily prices is also communicated to Commissioner, Civil Supplies.

Weekly Retail Prices of (30) Essential Commodities

The Weekly Retail Prices of 30 essential commodities are arrived from 51 Revenue Divisions choosing 21 essential commodities from weekly report and 9 essential commodities from daily reports. The daily & weekly prices data is also uploaded to the Hon'ble Chief Minister CORE dashboard from this department

Monthly consolidated report of Weekly retail prices of 30 Essential Commodities communicated to Secretary to Government, Planning Department & Commissioner, Civil Supplies.

Wholesale Prices of (40) Agricultural Commodities:

Directorate of Economics and Statistics collects and compiles wholesale prices of 40 agricultural commodities on monthly basis (last Friday of the month) with District as a

unit and prepare State average wholesale Price report. These prices are used to assess the price trends at wholesale centers.

Wholesale prices of Livestock

Livestock is a sub – sector of Agriculture and contributes around 10.85% to state GVA. The Prices of Milk, Meat and by products such as Head, Legs, Goat hair, Dung, Eggs etc., are required to estimate GVA of Live Stock sector.

Consumer price index numbers for industrial Workers (CPI-IW)

The Consumer Price Index Numbers measure the changes in the retail prices of a specific basket of goods and services, over a period of time. DES collects and compiles CPI-IW every month by obtaining the data from the selected centers in the State on weekly and monthly basis.

On par with Central Series the DE & S, A.P also compiles the CPI-IW with same base year 2001=100 for the following 4 complex centers and releasing index every month.

- | | |
|-------------------------------|---------------------------|
| 1. Vizianagaram& Chittivalasa | 2. Kakinada & Rajahmundry |
| 3. Jaggiarpeta & Miryalaguda | 4. Tirupathi & Renigunta |

The Consumer Price Index Numbers for Industrial Workers for State Series will be disseminated through the Directorate website for wider use.

Building construction cost index

The Prices of the Building Materials are collected quarterly for 14 items from 13 District Head Quarters for Urban and 13 selected Centers for Rural in Andhra Pradesh and the State and District average Prices are sent to the National Building Organisation, GOI, New Delhi along with the wages of the Construction Labour and compiles Building Construction Cost Index numbers with base year 1988-89 for rural and urban centers, separately. These prices are used for compilation of GSDP.

Prices of Agricultural Commodities

The Agricultural prices have enormous economic and political implications. These prices are not only balance between the demand and supply but also affect the inter-sectoral distribution of income and the rate of capital formation in the farming sector.

The Farm Harvest Prices of 24 Principal Agricultural Commodities from the selected centers are being collected and a consolidated report is being sent regularly to the Department of Agriculture and Cooperation, GOI for both the seasons.

Daily Wages of Agricultural Labour

The Daily Wages of Agricultural Labour are obtained from 44 (specifically selected) centers spread over 13 districts in the State. After consolidating the monthly reports, the Index of Agricultural Wages are compiled and sent to the Department of Agriculture and Co-operation, GOI, New Delhi.

Publication

An annual publication entitled “Prices, Wages and Index Numbers” for the year 2018-19 is brought out with an intention to provide Prices data, wages and related index Numbers released by the Government of India and Directorate at one place.

Trainings

The State level training programme was conducted to the concerned Unit Officers, DySOs and ASO of the selected center in the District for data entry of survey schedules A & B1 in the software provided by the NIELIT, GOI on 7th March, 2019 at DE&S, Gollapudi. The data entry work has completed in all ten (10) centers.

APCFSS software

To obtain quality, qualitative and reliable statistics and also to monitor the price trends on various Commodities/Livestock/Wages etc, a web based application has been developed by APCFSS. The data is being uploaded in the web application on Daily/Weekly/Monthly/Season wise. The web based application is useful for smooth flow of information from Districts to State Headquarters and also furnish the information to the Government on time.

VIII. Social Statistics Division

Social Statistics Division deals with all the matters relating to Official Statistics comprising social, demographic, education, medical, health, human development, availability of facilities, infrastructure, environmental, disaster statistics etc. and also collected the related data from various sources, compiling and releasing the subject-wise publications on regular basis.

The Social Statistics Division brought out the following publications during the year 2018-19.

Statistical Abstract, Andhra Pradesh - 2018

This is an Annual Publication releasing since 1956 and the latest issue of Statistical Abstract, Andhra Pradesh, 2018 is 60th in its series. It is the most comprehensive and prestigious publication of the Directorate, serving as an important source of material for statistical time series data of different sectors of Andhra Pradesh Economy. The Publication is having **427 tables** covering under different **chapters (28)** viz, Population, Vital Statistics, Climate, Agricultural & Irrigation, Live Stock, Forests, Industries, Mining, Fuel and Power, Transport, Banks, Prices, Labour Welfare, Education, Judicial, Police and Crime, State Economy for the current financial year along with comprehensive data for the previous years. It also contains comparative statistics of Andhra Pradesh, all India and also for Major States for certain selected indicators.

Districts at a Glance, Andhra Pradesh - 2018

The publication of Districts at a Glance, Andhra Pradesh, 2018 consists of **160 tables** in **23 chapters** by covering the District wise information on important sectors by capturing the Socio Economic scenario of Districts in the State. It provides information on Population, Vital Statistics, Rainfall, Land Utilisation, Area, Production & Yields of Principal Crops, Net Area Irrigated, Consumption of Fertilizers, Census of Land Holdings Census of Live Stock & Fishing, Agriculture Machinery & Implements, Education, Medical & Health, Industries, Power Consumption, Communications, Road Length, Banking, Housing, Employee Census, Gross District Domestic Product, Primary Weavers Co-Operative Societies etc.,

Andhra Pradesh Economy in Brief -2019

For the quick over view of the level of development in the State, a pocket size publication “**AP Economy in brief**” is released every year on the 1st January. The objective is to assess the development in the current year corresponding with previous years. This publication contains **60 tables** throwing a broad view over the important Selected Indicators for different sectors of economy covering Demography, State Economy, Public Finance, Agriculture and allied activities, Infrastructure Services, Social Service, Price statistics and Planning.

District Hand Book of Statistics – 2017&2018

The publication of District Hand Book of Statistics prepares by the concerned CPOs. In order to ensure the uniformity of proformae, all the tables contained in this publication were standardized and printing was taken up at State Level. The publication contains **23 chapters with 174 tables** relating to the concerned districts. Mandal wise information on Population, Medical & Public Health, Climate, Agriculture, Irrigation, Livestock & Veterinary Services, Fisheries, Forestry, Industries, Mining, Fuel & Power, Transport & Communications, Public Finance, Prices, Employment, Labour & Labour Welfare, Education, Local Bodies, Cooperation, Judicial, Police & Crime, Social Welfare Women & Child Welfare and Miscellaneous are available in these publications. The DHBS for the years 2017 & 2018 have been brought out during the year 2018-19.

Compendium of Environment Statistics, Andhra Pradesh

Compilation of Compendium of Environment Statistics, Andhra Pradesh has commenced since 2006 and the publications for 2016 & 2017 are 9th & 10 in its series. The publication consists of 186 tables and 8 Chapters and provides a sound database on Bio-Diversity, Atmosphere, Lithosphere, Hydrosphere and Human Settlements. This publication consists of various issues regarding Environment Degradation in several aspects.

Child Statistics, Andhra Pradesh.

The first publication of Child Statistics, Andhra Pradesh, 2011 was brought out during the year 2013. The Child Statistics, Andhra Pradesh, 2016 & 2017 is the 4th in its series. It consists of 126 tables covered in 6 Chapters. This publication reveals comprehensive data on Children in all aspects of their lives and covers information on commitment & responsibilities, demography, health, education, child labour and child protection.

Statistics for Local Area Planning (SLAP)

The Government/NGOs and policy makers are very conscious to know the information on availability of infrastructure, amenities etc., at village / Gram Panchayat level for formulation of plans/schemes required for development of their Local areas / Constituencies.

In view of importance of Village/Ward Level Statistics, the Government of A.P. have decided to collect the Statistics at Village/G.P Level covering all the villages/G.Ps in the state from 2012-13 onwards under Statistics for Local Area Planning (SLAP) by utilizing the financial support from the GOI under the scheme of “**Support for Statistical Strengthening**” (SSS).

- The main objective of the scheme is to develop and maintain a comprehensive database at village/Gram panchayat level to meet the requirements of Govt. Departments/Agencies for planning at village/G.P level and to make it available to public for wider use.
- To keep all the data sets under one umbrella.

The Government of A.P decided to develop web based online applications for all the activities of Directorate of Economics & Statistics including SLAP to have a reliable, credible and timely data. The web based application has already been developed by Center for Good Governance (CGG) from 2014-15 onwards.

Coverage of SLAP data:

984 indicators data @ village from 20 Departments is being collected from all 17835 villages in the State, which includes 12918 Gram Panchayats covering all Mandals in the State. With this 1.75 Crore indicator data points are available in SLAP.

Data sets on important parameters like, Schools, PHCs, Roads, Land Utilization,

Population and Basic amenities are collected for all revenue villages from 2012-13 onwards. For urban mandals, Municipalities, Corporations data pertaining to SLAP is being collected from 2016-17 onwards.

Present Status:

- a. The collection and compilation of SLAP data for the years 2012-13 & 2013-14 was completed and data base is available in DE&S .
- b. The data for the years from 2014-15 to 2016-17 pertaining to 17366 villages consisting of 984 indicators of each village has been verified and updated in the web portal.
- c. The Directorate has also updated the data of all urban nature villages along with 9 urban mandals for the years 2014-15 to 2016-17 and data is available at Directorate.
- d. The collection of SLAP data for 2017-18 & 2018-19 is in progress.
