Preface

Directorate of Economics and Statistics (DE&S) is bringing out Annual Administration Report (AAR) every year. The Annual Administration Report 2020-21 provides an outline about the activities taken up during the year.

DE&S followed the calendar of activities and submitted reports to the GOI and GOAP in time as per the schedule, in addition to other surveys/studies entrusted by the Government. The diversified activities of the Department and the strong team work in completion of works and submission of reports is clearly evident in the Report.

The efforts made by officers and staff of DE&S to bring out this AAR 2020-21 is appreciable.

Place: Vijayawada
Date: 09-12-2021

Sd/- V.Prathima
Director

Officers & Staff Associated with this Report:

Sri P.Uma Prasad, Joint Director

Sri C.Pandurangadu, Assistant Director

Smt D. Lakshmi Prabha, Deputy Statistical Officer

I. Introduction

Directorate of Economics and Statistics (DE&S) is the Centralised Statistical Organisation of the State for systematic collection, compilation, analysis and objective interpretation of Statistical data over a vast range of social and economic sectors and State Economy.

This data is essential to guide and meet the challenging statistical needs of planners and policy formulators at National, State and Local levels of governance.

Nodal agency

In pursuance of NSC recommendations and also to meet the requirements of India Statistical Strengthening Project (ISSP) initiated by the Ministry of Statistics and Programme Implementation (MOSPI), GOI, the Government of Andhra Pradesh issued a notification declaring DES as the Nodal Agency vide G.O. Ms. 12, Planning (XVIII) Department, dated:12-4-2010 for developing an efficient statistical system and ensuring technical coordination in all matters relating to statistical activities in the State. Directorate of Economics and Statistics is broadly made responsible for (i) Coordination of Statistical activities of various line Departments/ Organizations of the State (ii) Identify the training needs and arrange to conduct training programmes to the Statistical Personnel in line departments at State and Sub-State levels etc.

DES, AP collects various data sets such as primary & secondary. Rainfall, Prices, Area & Yield Statistics, ASI, etc are some of the main data sets being collected by DES on one hand and conducts various surveys/Censuses viz., Minor Irrigation Census (MIC), Economic Census, Statistics for Local Area Planning (SLAP), Census of Land Holdings (CLH) etc on other hand. DES collects data on season-wise area, Production & Productivity estimates of all major crops every year and compiles the data sets for analysing the results, so as to furnish the information to the Governments at State & Central level. DES, Andhra Pradesh also takes up various publications viz., Statistical Abstract of Andhra Pradesh, Season and Crop Report, Report on Annual Survey of Industries, Hand Book of Statistics, Andhra Pradesh Economy in brief, etc.

Collection of Statistics Act, 2008

Ministry of Statistics and Programme Implementation (MOSPI), Government of India brought out the Collection of Statistics Act, 2008 (No. 7 of 2009). The Rules have been notified under this Act as the Collection of Statistics Rules, 2011 for implementation in the country.

The Act facilitates the collection of statistics on economic, demographic, social, scientific and environmental aspects and matters connected therewith or incidental thereto, not only from industrial and commercial concerns but also from individuals and households.

For this purpose, the Government of Andhra Pradesh vide G.O.Ms.No.13, Planning (XV) Department, dated: 08-07-2011 designated the Director, DE&S, Govt. of Andhra Pradesh as Nodal Officer for the State.

Functions & Activities of DE&S

DE&S comprises of State Headquarters, Chief Planning Offices at District level and field functionaries at Revenue Division and Mandal levels. As mentioned above, DE&S is at the centre of the statistical system in Andhra Pradesh, carrying out the following statistical activities associated with the official statistical system.

1. Collection, compilation, classification, tabulation, analysis, dissemination and presentation of data on various socio-economic aspects of the State in a systematic manner.
2. Conducting sample surveys/censuses and other ad-hoc field surveys etc., on various socio-economic aspects.
3. Co-ordinating the statistical activities of various departments of the State Government.
4. Organisation of “in service training” to the statistical personnel.
5. Liaison with the statistical organisations of the Government of India and other State Governments.

6. Interaction with statistical agencies at National level, RBI and Research Institutions/Universities and

7. Dissemination of official statistics through periodic publications

Further, the Director, DE&S is associated with number of committees constituted by various Departments/Agencies, important of them is mentioned below:

- Member, State Level Co-ordination Committee on Crop Insurance constituted by Agriculture Department.
- Member, Committee on Statistics of Agriculture and allied sectors.
- Convener of SLCC and Addl. State Agriculture Census Commissioner
- Census Commissioner of Minor Irrigation Schemes

All the functions of DES are grouped into the following technical divisions for administrative convenience and each division is headed by a senior officer in the cadre of Joint Director or Deputy Director.

- | | |
|---|---|
| a. Agricultural Statistics Division (ASD) | b. Yield Statistics Division (YSD) |
| c. State income Division (SID) | d. Industrial Statistics Division (ISD) |
| e. Socio Economic Survey Division (SES) | f. Price Statistics Division |
| g. Social Statistics Division (SSD) | h. Electronic Data Proccession Division (EDP) |
| i. Co-ordination & HRD Division (C&HRD) | j. Administration Division |
| k. Budget, Stores & Accounts Division | |

The above Divisions are further divided into the following Units, each of which is entrusted with specific areas of work headed by an officer in the cadre of Asst. Director/ Statistical Officer.

Organisation set up

There are 13 district Chief Planning Officers, one in each District, headed by one Joint Director Cadre officer, designated as Chief Planning Officer assisted by Deputy Director, 2 Assistant Directors, 2 Statistical Officers along with supporting technical and administrative staff functioning under the control of Director, DE&S in the State. The principal functions of these officers are of two fold, (i) Assisting the district administration to review all the developmental activities taken up in the District and also monitoring the implementation of MPLADS, Navaratnalu and other flagship programmes of the Government being implemented through the Planning Department, and (ii) Statistical activities of the Directorate of Economics Statistics (DE&S) including Census and Surveys.

There are 51 Revenue Divisions in the State and at the Division level, there is one statistical functionary viz., Divisional Deputy Statistical Officer (Dy.S.O), located in the Office of the Revenue Divisional Officer (RDO) and attends the compilation of various Statistical reports at the Divisional level and also supervises the field work of Mandal Assistant Statistical Officers of respective Divisions and submits consolidated Divisional reports to the Chief Planning Officer. There are 679 mandals in the State. One statistical field functionary i.e., Assistant Statistical Officer (ASO) sanctioned to each mandal is located in Tahsildar's office and attends to all statistical items of works at mandal level.

All the officers and staff working in DE&S are recruited by Andhra Pradesh Public Service Commission (APPSC) under common cadre of A.P. Economic and Statistical Service and A.P Ministerial Service Rules. The total cadre strength of the department is 1344 comprising of 123 Gazetted Officers, 1119 Non-Gazetted officers and 102 Class IV employees. The details are given in the following table:

Working during the year 2020-21

Sl. No	Designation	Office of the DE&S	Office of the Chief Planning Officers	Planning and Other Offices	Vacant	Total
1	Director	1	0	2	0	3
2	Joint Director	3	8	3	7	21

Line Departments

The core activities of DE&S are mainly estimation of GSDP and other Macro Aggregates. For the purpose of estimation of GSDP, DE&S needs statistical data from various line departments. Certain posts have been sanctioned in line departments to look after the statistical needs of these departments and to furnish the statistical data to DE&S for estimation of GSDP. The posts have been created in 23 line departments and DE&S

personnel have been posted to work in those departments. The Statistical posts sanctioned position in line departments is given below:

Sl.No	Name of the Department	Staff Sanctioned						
		JD	DD	AD	SO	DySO	ASO	Total
1	Commissioner of Rural Development					1	1	2
2	Commission for B.Cs,A.P.		1					1
3	Commissioner of Relief Secretariat		1			1		2
4	Commissioner Commercial Taxes		1					1
5	MA & UD ,A.P.Secretariat			1	1	1		3
6	Commissioner I & CAD Dept.			1		1	2	4
7	Commissioner of Fisheries Department			1			1	2
8	Social Welfare Department, Secretariat				1			1
9	Commissioner of Social Welfare					3	2	5
10	Commissioner & Director of Municipal Administration				1		1	2
11	Commissioner Labour				1	1		2
12	Commissioner of Sugars					1	1	2
13	Commissioner of B.C. Welfare				1	1		2
14	Principal Conservation of Forests					2		2
15	Commissioner of Women & Child Welfare Department					1		1
16	Commissioner of Higher Education					1		1
17	Director of Factories					1		1
18	APPSC					1		1
19	Director of Intermediate Education						1	1
20	Commissioner of Collegiate Education						1	1
21	Director of School Education						5	5
22	EFS & T Department A.P Secretariat					1		1
23	Commissioner Civil Supplies					1		1
	TOTAL	0	3	3	5	18	15	44

Promotions:

During the year 2020-21 the following promotions are given both in Gazetted and Non- Gazetted cadres.

Sl.No.	Cadre	No.of Promotions
1.	Joint Directors	4
2.	Deputy Directors	11
3.	Assistant Directors	13
4.	Statistical Officers	17
5.	Deputy Statistical Officers	41
6.	Superintendents	4
7	Senior Assistants	1
	Total	91

Retirements:

During the calendar year 2021, the following employees were retired from Government service on attaining the age of superannuation.

Sl.No.	Cadre	No.of Retirements
1.	Director	0
2.	Joint Directors	2
3.	Deputy Directors	4
4.	Assistant Directors	4
5.	Statistical Officers	3
6.	Deputy Statistical Officers	19
7.	Assistant Statistical Officers	5
8.	Superintendents	2
9	Senior Assistants	0
10.	Junior Assistants	0
11.	Typists	1
	Total	40

Accounts, Stores & Budget Wing

The main functions of **Accounts & Stores Wing** are payment of salaries, processing of pension papers, medical reimbursement proposals & providing loans and advances, maintenance of office building, supply of stationery to all the divisions etc.

Budget Wing: The main function of budget section is preparation of Budget Estimates for each financial year apart from preparation of number statements, submission of proposals to Government for release of Budget Release Orders and Administration Sanction Orders etc.

Budget Allocated to Each Agency including Plans etc.

(in Rs.)

Human Resource Development (HRD)

DES, AP organizes various training programmes from time to time on all statistical subjects and also depute the officers & staff of DES to the various prestigious institutions to enrich the knowledge levels of statistical fraternity.

Two weeks Induction Training Programme to the newly recruited Assistant Statistical Officers (48) 2020 batch was organised at Districts (except Vizianagaram & SPS Nellore) during 2020-21.

The officers & staff from DES & Districts attended the following online training programmes conducted by APhrDI, Bapatla during 2020-2021.

S.NO.	Period of Training	Name of the Subject	Total participants
1	2	3	6
1	06-10-2020 to 08-10-2020	Three days Programme on WEB development and its Security	43 (4 from DES & 39 from Districts)
2	22-10-2020	CPS-SCHEME	39 (10 from DES & 29 from Districts)
3	02-01-2021	CFMS-	30 (8 from DES & 22 from Districts)
4	20-01-2021	Verbal Written & Communication skills	58 (26 from DES & 32 from Districts)
5	23-01-2021	e-Office	36 (from Districts)
6	25-01-2021	CFMS PHASE-2	30 (8 from DES and 22 from Districts)
7	02-02-2021	Leave rules	57 (24 from DES & 33 from Districts)
8	04-02-2021	Verbal Written & Communication skills	43 (17 from DES & 26 from Districts)
9	15-02-2021	Electronic Service Register	61 (24 from DES & 37 from Districts)

Electronic Data Processing (EDP) Division

Directorate is well equipped with the servers and desktops to cater the needs of department in the field of Information Technology. All Systems in the Directorate are well connected with the Local Area Network.

The EDP Division involved in resolving online issues which are being cropped up when the modules are used from mandal to state level in live with URL address <https://des.ap.gov.in>. In-house software has been maintained in DE&S. Maintenance of Servers, procurement of Hardware/software Networking, e-Office, BioMetric/Aadhar attendance, CM Core Dash Board (RTGS), & Updation of GMIS software etc at DES are the other activities of EDP Division.

Right to Information Act, 2005

The RTI Applications/Appeals of Right to Information Act are normally received in RTI section and disposed duly obtaining the information from the concerned sections of DE&S and also forward to other departments by transferring under section 6(3) of RTI Act 2005 according to nature of information.

During the year 2020-21, a total no.of 21 applications received and disposed.

Library

Directorate of Economics and Statistics is equipped with a beautiful technical library named P.C.Mahalanobis Library Hall, containing various books, publications, journals, magazines etc. Various publications were brought out based on primary data collected through Mandal ASOs of all the districts. They have been kept for information to the public, besides various reference books in the library.

The information/data available is very much useful to the Research Scholars, representatives of NGOs, planners, policy makers etc.

II. Agricultural Statistics Division

The main functions of the Division are:

A. Rainfall: Data on Rainfall Statistics assume greater importance and the demand for the rainfall data is ever increasing. The rain water collected by the gauge will be measured every day at 8.30 A.M in all 670 Revenue Raingauge Stations installed at Mandal Headquarters in the State. In addition, 1168 Automatic Weather Stations (AWS) and 1219 Automatic Raingauge Stations (ARGs) are functioning across the State. In case of heavy rains, all the measurements taken up during the previous 24 hours will be summed up at 8.30 hours and treated as the rainfall of the particular day.

The consolidated daily rainfall data of Revenue gauges is communicated to APSDPS to integrate with AWS rainfall data. The integrated rainfall data is utilized for all official purposes. DES consolidated and submitted (i) Daily rainfall report (ii) Weekly rainfall report (iii) Weekly Status Report (iv) Dry spell reports and (v) Monthly rainfall report to Government.

The Chief Planning Officers at Districts inspect the Raingauge stations located at Mandal Headquarters and furnish the status report to DES every year.

B. Season and Crop conditions: Season and Crop condition report was prepared duly obtaining reports from the Districts on Rainfall, Season-wise water levels, agricultural operations, condition of standing crops, harvest operations and crop-wise areas of principal crops and furnished to concerned departments.

C. Advance Estimates: Four Advance Estimates were prepared, prior to completion of Agricultural Census, on Area, Yield and Production and furnished to Ministry of Agriculture, Government of India for the purpose of planning and taking policy decisions.

D. Timely Reporting of Agricultural Statistics (TRAS): Area enumeration was taken up in 3177 villages of 13 Districts under TRAS to provide timely and reliable estimates of area under important crops for both Kharif & Rabi Seasons. The area reported in the Card Nos. I, II, III & IV was verified at Mandal & District level and Unbiased Estimates & Ratio Estimates for each mandal were prepared at State level. The estimated area under each crop was furnished to Ministry of Agriculture, Government of India.

E. Improvement of Crop Statistics (ICS): The main objective of the Scheme is to suggest remedial measures to improve the quality and reliability of area and yield statistics. A.S 1.0 (Sample Size: 350) & 1.1 (Sample Size: 220) Schedules were canvassed by ASOs for State Samples and the field staff of NSSO for central samples. Harvest stage supervision was conducted by both DES & NSSO Officials on 50: 50 basis to improve the quality and reliability of yield statistics. 460 villages and 220 villages were selected for supervision for the planned villages to conduct C.C. Experiments both for Kharif & Rabi Seasons.

F. Agricultural Census: It is a complete enumeration of area under different crops, different categories of Land Uses and different sources of irrigation etc. The area statistics at village level is collected through e-panta mobile app during 2020-21 as part of “YSR Rytu Bharosa” scheme. The VRO and the VAA/VHA/VSA/VFA shall approve each of the record through biometric authentication in the e-panta mobile app in both the seasons i.e. Kharif & Rabi. These area figures are being reconciled at mandal and district level with line departments i.e Agriculture, Horticulture, Sericulture, Irrigation and other departments concerned. After completion of enumeration and compilation of area figures at different levels in the District and State level, the DES compiles and releases the publications (i) Agricultural Statistics at a Glance and (ii) Season and Crop Report of Andhra Pradesh on yearly basis. Besides these, uploading of Agricultural Statistics in GOI website, Preparation of crop-wise normal areas for both Kharif and Rabi seasons and Index numbers of agricultural production were also done.

G. Agriculture Census of Land Holdings: Agriculture Census of land holdings will be conducted once in 5 years on quinquennial basis. **The publication of Agriculture Census of Landholdings -2015-16 phase-III (Input Survey-2016-17) was released in 2020-21.** Preparatory activities of 11th Agriculture Census of Landholdings-2020-21 like extraction of required data from the web land portal, updation of software of Agriculture Census 2015-16 by the AP NIC, finalization of Village Master is under progress. The 11th Agriculture Census 2020-21 will be commenced shortly in the State.

H.6th Minor Irrigation Census and Census of Water Bodies: 6th MIC with reference year 2017-18 was taken up to canvass five schedules viz., (i) Village Schedules (ii) urban Schedule (iii) Ground Water Scheme Schedule (iv) Surface water Scheme Schedule and (v) Water body Schedule, to build sound and reliable database in the minor irrigation sector. The data will be used for estimating the availability of ground water and formulation of realistic plan for water resources development. VRO/VRA is the enumerator in rural and urban areas and the supervision is entrusted to higher supervisory level of the field functionary at mandal level. The data is being entered directly into tab/mobile after canvassing & due verification by the enumerator. Web portal is established at <http://aproms.ap.gov.in/mic6/dashboard> for monitoring the 6th MIC & Census of water bodies.

Enumeration:

- Enumeration of 6th MIC and CWB work was commenced on 15.2.2019 through tab / mobile application and completed by 01.12.2019.

Data transmitted to Gol (<http://mi6census.mowr.gov.in>):

- Enumerated data transmitted to Gol portal on 02.12.2019.
- Images of Water Bodies transmitted to Gol portal on 03.03.2020 in the prescribed path.
- The entire data was incorporated in the Gol web portal.

Validation:

- Gol has validated the data and identified certain errors in the schemes of MI Census and CWB.
- The errors were rectified in the Gol portal.

6th MIC & Census of Water Bodies at a glance (Provisional):

6th MIC sources:

○ Ground water schemes	: 11,32,769
○ Surface water Schemes	: 58,195
○ Total sources	: 11,90,964

1st CWB:

○ No. of Water Bodies(R)	: 1,90,263
○ No. of Water Bodies(U)	: 514
○ Total No. of Water Bodies	: 1,90,777

III. Yield Statistics Division

A. Crop Estimation Surveys on agricultural crops: The objective of crop estimation survey is to obtain the estimates of average yield per hectare (productivity) and total production of principal crops both at district and state levels by conducting crop cutting experiments.

DES organized crop cutting experiments for 11 food crops 11 non-food crops on the random sampling basis for the year 2020-21.

Planning and Designing: The procedure and techniques involved in the survey was finalized based on the results of pilot surveys carried out by the Indian Agricultural Statistics Research Institute (IASRI), New Delhi. The mandal wise and crop wise sample size of the plan for the year 2020-21 was communicated to districts for village wise and agency wise planning for conduct of C.C.Experiments. Crop cutting experiments were planned and conducted for 19 crops in Kharif season and 15 crops in Rabi season during the year 2020-21.

B. NON CC: Yield estimation through oral enquiry method: 98 agricultural and horticultural crops were planned during the year, out of the planned, 88 crops yield, production and prices were estimated under Non-CC method in both kharif and rabi seasons only due to non-availability of area in 10 planned crops in the districts during the year 2020-21. Out of 88 crops 16 crops were covered in both kharif & rabi seasons. Selection of the crops is based on the highest area of the crop in that particular district/mandal/village during the previous year. The area and production of the crops are being collected from the farmers on oral enquiry method and average yield of that village will be arrived. At mandal level, the average yields are worked out on simple average basis but the district average yield is estimated by weighted average method taking respective mandal wise areas as weights.

C. Village Insurance Scheme: From Rabi 2019-20 onwards the State Government introduced Dr.YSR Free Crop Insurance Scheme in the state instead of PMFBY for coverage crop insurance to the farmers in the state. The losses due to preventive / late sowings, localized risks like hailstorm, earth quake and post-harvest losses will be covered. One predominant crop is selected for “**Village made as Insurance Unit**” and no

authorized insurance companies are involved in the scheme and the State Government itself settling the claims as and when crop losses occurred. 31584 experiments were planned in Kharif season and 23104 experiments in Rabi season during the year 2020-21. The methodology adopted for conduct of C.C experiments under this scheme is similar as regular C.C. experiments. The primary workers for this scheme are A.E.Os, MPEOs VAAs/VHAs/VSAs of Agriculture Department during the year 2020-21.

Senior Officers from DES, Agriculture Department have supervised the experiments at harvest stage. Yield results are monitored daily through online from DES. The unit wise estimates were generated and furnished to Department of Agriculture before the cut off dates.

A total no. of 947646 farmers were benefitted during the year i.e., both in Kharif and Rabi season with an amount of Rs. 125217.00 Lakhs.

IV. State Income Division

State Domestic Product (SDP) is common parlance known as **“State Income”**, is a **measure in monetary terms of sum total volume of all goods and services produced during a given period of time within the geographical boundaries of the State, accounted without duplication**. This is one of the most important commonly used single economic indicators to measure the growth and to study the structural change taking place in the economy. The estimates are generally prepared both at current and constant prices.

State Income Division (SID) of DE&S, compiles the State/District Domestic Product, estimates every year by following the methodology specified in System of National Accounts (SNA) and as suggested by the National Statistics Office, New Delhi to assess the progress of economy by the policy makers and Administrators.

For the purpose of estimation of State Domestic Product, the state economy is broadly classified into Agriculture, Industry and Services sectors.

The estimates of State Domestic Product (SDP) are prepared and released in four stages namely, Advanced Estimates (AE), First Revised Estimates (FRE), Second Revised Estimates (SRE) and Third Revised Estimates (TRE) to meet the requirements of the Government, policy makers and researchers.

Advance Estimates (AE) of 2020-21 at Constant (2011-12) Prices

DES compiled and released the Advance Estimates of GSDP for the Year 2020-21 at Constant (2011-12) Prices in the month of March, 2021. Agriculture & Horticulture production data, production data on milk, meat & egg, production estimates of fisheries, Production data for mining & quarrying & Vehicles data were furnished by Horticulture, Animal Husbandry, Fisheries, Mines Geology and Transport Departments respectively. Index of Industrial Production (IIP), Sales Tax, analysis of Budget and relevant indicators were supplied by NSO. These are all used to compile the Advance Estimates. The Performance of the corporate sector during April-December 2020 was also been taken into account while compiling advance estimates. As per methodology, the Trends of the All India Gross Value Added Estimates were taken into consideration in certain sectors

and adopted appropriate indicators wherever the data sets are not available at State level.

The Advance Estimates at **Current Prices** are derived by the **Implicit Price Deflator (IPD)** method at sectoral level from the relevant price indices as per the methodology provided by the NSO.

**Broad sector wise GVA/GSDP and GDP of Andhra Pradesh & All India estimates
at Constant (2011-12) Prices (Rs. In Crores, growth in %)**

A.E-Advance Estimates, FRE-First Revised Estimates, SRE-Second Revised Estimates

Because of Pandemic COVID-19 all sectors (except Agriculture) of GVA / GSDP registered a minus growth rate.

Gross State Domestic Product (GSDP) at Constant (2011-12) prices for the year 2020-21 (AE) is estimated at **Rs. 6,51,624 Crore** registering a growth rate of **-2.6%** whereas the **All India** registered a GDP growth of **-8.0%** only. The gap is about **-5.4%**.

- ❖ Gross Value Added (GVA) at Constant (2011-12) Prices is estimated at **Rs. 5,90,789 crore** in **2020-21** registering growth of **-2.47 percent**, whereas the **Gol** registered a GVA growth of **-6.5%** only. The gap is about **-4.0%**.
- ❖ The Agriculture & Allied Sectors registered a growth rate of **4.16%** only in 2020-21 at Constant (2011-12) Prices with a GVA of **Rs. 1,92,308 crore** as against the previous year (i.e. 2019-20) growth rate of **7.91 %**, whereas **Gol** registered a growth of **3.0%** in 2020-21.
- ❖ The GVA of the **Industry Sector** is **Rs. 1,56,816 crore** with a growth rate of **-3.26%** in 2020-21 over the previous year.
- ❖ The GVA of the Services Sector is estimated at **Rs. 2,41,664 crore** with a growth rate of **-6.71%** in 2020-21 over the previous year.
- ❖ The Per Capita Income (NSDP) of Andhra Pradesh during 2020-21 at current prices is estimated at **Rs.170215** as compared to **Rs. 168480** in 2019-20(FRE).

The Per Capita Income (NNI) of All India is **Rs. 127768**.

Preparation of FRBM Frame Work:

The GSDP estimates, 2020-21 are submitted to the Finance Department to prepare a macro economic framework statement and fiscal policy statement for placing before the Legislature at the time of Budget sessions as part of Andhra Pradesh Fiscal Responsibility and Budget Management (APFRBM) Act 2005.

The estimates are also submitted to Planning Department to include in the Socio Economic Survey report for placing before the Legislature at the time of Budget session.

District Domestic Product (District Income):

The importance of grass root level planning at district or sub region level is increasing day by day and for decentralized planning, it is very essential to have proper data on various development indicators. Among them, estimates of District Domestic Product (DDP) or District Income are one of the core indicators. Preparation of District level estimates has gained importance over the years to achieve balanced regional development. District Domestic Product (DDP) estimates and Growth Engines at state level compiles every year. **District Income** is defined as the sum total of economic value

of goods and services produced within the geographical boundaries of the district. The District GVA has been compiled using the district wise production & prices and relevant indicators wherever the datasets are not available.

Key Growth Engines in the Economy

The key growth engines in the Agriculture, Industry & Services sectors, which are the major contributing items in the state income have been identified. The Sector Wise Growth Engines of the state and all the districts have been prepared in the New Series with 2011-12 as base year, so as to depict the true picture to the policy makers and to launch new projects.

Budget Analysis

The State Economy Division collects State Government budget documents from AP Finance Department and analyses the same as per economic cum purpose classification to arrive estimates of Government contribution to GSDP/GFCF. The Budget Document 2021-2022 was analysed and the sector wise GVA was estimated and incorporated in preparation of GSDP estimates.

Analysis of Local Body Accounts:

The division collects annual accounts from all local bodies (rural and urban) and Urban development authorities. The main objective of the analysis of annual accounts is to capture the contribution of the Public sector transactions in the State Income and Capital Formation. The Annual Accounts of all 13704 Local Bodies were collected for the year 2019-20 and analysed through the software developed by CFMS .The Sector GVA/GFCF was estimated and incorporated in preparation of GSDP estimates

Non Departmental Enterprises (NDEs)

The annual accounts of 64 out of 78 State NDEs for the year 2019-20 were collected and yet to be analysed the accounts through the software provided by NSO. Sector wise GVA/GFCF is estimated and incorporated the same in preparation of GSDP estimates.

Inter State comparison of estimates:

“Interstate comparison on GSDP from 2011-12 to 2020-21(SAE)”, the analysis of the trends of GSDP during the period 2011-12 to 2019-20 (FRE) both at Current and Constant (2011-12) Prices were prepared.

Joint Discussions on the Comparable Estimates in finalization of the GSDP

Estimates at CSO, New Delhi.

Central Statistics Office, New Delhi organized Joint discussions on Comparable Estimates of State Domestic Product in the New Series with Base Year 2011-12 for the years 2017-18 and 2018-19 with the officials of National Accounts Division and the representative of States/ UTs to reconcile the differences, if any, in the GSDP estimates prepared by DE&S's and CSO in the month of May 2020.

Director, DE&S, Officers & Staff of SID participated Joint Discussions on the comparable estimates with NSO officers contacting through mails because of pandemic disease COVID-19.

Trainings & Workshops

5 days Workshop on State Income and related aggregates was conducted by NSO through online from **12th to 16th October, 2020**. The Officials from State Economy Division participated in the workshop.

V.INDUSTRIAL STATISTICS DIVISION

A. Index of Industrial Production

Comparison of economic performance over a time is a key factor in economic analysis and a fundamental requirement for policy making. Short-term indicators play a pivotal role in this context by providing such comparison indicators. Among these short-term indicators, the Index of Industrial Production (IIP) is one of the most well known and well-used indicators. The IIP measures volume of changes in the production of an economy, and therefore provides a measurement that is free from influences of price changes.

IIP is an abstract number, the magnitude of which represents the status of production in the industrial sector for a given period of time as compared to a reference period of time. The IIP is a short-term indicator of industrial growth till the actual results from Annual Survey of Industries (ASI) and National Accounts Statistics become available. This indicator is of paramount importance to the Government for policy planning purposes and is also being extensively used by various organizations including Industrial Associations, Research Institutes and Academicians.

COVERAGE

The present Index of Industrial Production covers the Mining & Quarrying, Manufacturing and Electricity sectors only.

The compilation of IIP starts with the collection of basic production data relating to the items selected in the item basket. The basic production data are then combined using weights to produce data for the 3-digit class of NIC-2008. The subsequent upper levels, above the 3-digit group, of IIP are constructed by combining the lower levels using weights. That is, 3-digit NIC group is combined to form 2-digit NIC divisions, 2-digit NIC divisions are combined to form 1-digit NIC sections (Mining & Quarrying, Manufacturing and Electricity) and finally, these sections are combined to form the General Index.

The base year of IIP was shifted from 2004-05 to 2011-12 and the Index of Industrial Production of AP & All India was released on monthly basis during the year 2020-21.

B. ANNUAL SURVEY OF INDUSTRIES (ASI)

The National Statistical Office (NSO), Government of India is conducting Annual Survey of Industries (ASI) in the State for every year. NSO collects the data of factories having 100 or more workers and all units having less than or equal to 4 units in a district in the same 3 digit NIC code under Census Scheme. NSO also covers certain selected units with less than 100 workers under Sample Scheme, in which, an equal no. of selected units is canvassed by Directorate of Economics & Statistics (DES). It collects the selected sample unit's data in the prescribed schedule communicated by NSO (IS wing), Kolkata. ASI covers factories registered under section 2m (i) and 2m (ii) of the Factories Act, 1948 employing 10 or more workers with power and 20 or more workers without power respectively.

The ASI has been designed to obtain comprehensive and detailed data to achieve the following objectives viz.,

- a) Estimation of the contribution of manufacturing industries as a whole and of each type of industry to the State Income.
- b) Systematic study of the structure of industry as a whole and each type of industry.
- c) To analyze the various factors influencing industries in the State.
- d) Construction of comprehensive, factual and systematic basis for formulation of policy.

The ASI schedule consists of Part-I and Part-II. The details of data on Assets & Liabilities, Employment and Labour cost, receipts, expenses, Input items, Products and By-products manufactured etc., are collected in Part-I and Part-II. It is exclusively designed for Labour Bureau purpose and collects data of labour statistics viz., working days, mandays worked, absenteeism, labour turnover, man- hours worked etc.

The National Statistics Office (NSO, IS wing), Government of India furnishes the unit level data of both census and sample units surveyed by NSO for pooling purpose. Pooling of central and state level ASI data for publishing district level estimates is an important activity that needs to be performed by the state. **All the census and sample units canvassed by NSO and DES are treated as the Pooled sample for the state.** The State and district level values of various parameters of Industrial sector are estimated by

taking into account **pooled sample data** duly following the procedure communicated by CSO for bringing out “**Annual Survey of Industries**” publication.

The Publication of Annual Survey of Industries 2017-18 was brought out during the year.

DES has been participating in the survey since 2003-04 along with NSO (FOD). The NSO (FOD) collects data for Central Samples and Directorate of Economics & Statistics collects the Samples data as per allocation made by NSO (IS) wing.

7th Economic Census

7th Economic Census is being conducted by the Ministry of Statistics and Programme Implementation (MoSPI) across the country as a reference year 2019. MoS&PI has engaged CSC e-Governance Services India Ltd, a Special Purpose Vehicle (SPV) under M/o Electronics & Information Technology, as an Implementing Agency for 7th Economic Census.

The enumeration work has been started simultaneously in A.P in the month of September, 2019 and the work was interrupted due to Covid-19.

The field enumeration work of 7th EC has been resumed in green zone areas of A.P from June, 2020 and the field enumeration work was completed as per dash boards reports by 31.03.2021.

The discrepancies and abnormalities of data identified at 2nd level supervision at district level which was appraised to the MOSPI for rectification for issuance of district completion certificates and dissemination of final results of 7th EC is under process.

VI. Socio Economic Survey Division

Andhra Pradesh state has been participating in Socio Economic Surveys (SES) from 14th round (1958) onwards to generate comparable estimates, to pool Central and State sample data to get sub-state level estimates. The surveys are carried out on Socio Economic subjects of national interest like Household Consumer Expenditure, Employment & Unemployment, Unorganized Manufacturing, and Trade and other services (excluding construction), Housing conditions, Disability, Health Care and Education, Domestic Tourism etc. Every round covers normally of one year period, which will be divided into 4 sub-rounds of 3 months duration.

Sampling Design:

National Statistical Office (NSO) previously known as National Sample Survey Office (NSSO) has been adopting a multi stage stratified random sampling. The first stage units (FSU) are villages in rural sector and UFS blocks in urban sector, the ultimate stage units are households/enterprises. NSO divided the State into Regions by grouping contiguous districts based on population density and cropping pattern. In case of Rural Sector, the district is bifurcated into two or more strata depending upon the size of population, where as for urban sector, strata are formed for each district for all Urban areas except for city/town having more than ten lakh population. Each city or town having more than ten lakh population will constitute separate strata. In NSS 78th round (January, 2020 to March, 2021), Census 2011 Villages for Rural samples and Urban Frame Survey (UFS) blocks for Urban samples were used in the field survey.

Allotment of samples and issue of guidelines:

The samples were allotted sub round wise to the districts and the detailed guidelines were issued in the beginning of the round and as and when clarification on guidelines / instructions received from NSO, the same was communicated to the field staff from time to time.

Field Work:

The field work of NSS 78th Round (January 2020 to March 2021) was completed during the year 2020-21.

Pooling of Central and State sample data of NSS rounds:

Andhra Pradesh state has been undertaking the Pooling of Central and State Sample Data since, NSS 66th round.

Training Programmes/workshops:

All India Pooling Workshop for States on NSS 75th round for schedule 25.0 & 25.2 was organized on 24th March, 2021 through video conference at DE&S, Vijayawada. Joint Director, Statistical Officer (EDP), Two Dy.SOs and Two ASOs of SES, DES attended the above workshop.

VII. Price Statistics Division

DES collects prices for various commodities at various time intervals. The information is sent to Commissioner of Civil Supplies, Government of Andhra Pradesh and Ministry of Agriculture, GOI.

To avoid time lag in transmission of Price Statistics, ONLINE System has been introduced. It has been facilitating to receive all price statistics as per the time schedule and also to generate weekly, monthly, quarterly and annual reports automatically, which resulted in saving time and lot of man power.

Daily Retail Prices of Six Essential Commodities:

Directorate collects the prices of six Essential commodities viz., Rice, Red gram, Groundnut Oil, Tamarind (with / without seed), Red Chillies (dry) and Onions altogether in 13 grades from 51 Revenue Divisional Head Quarters in the State on daily basis and compiles on daily /weekly/Monthly basis to monitor Price trends.

Directorate is communicated the information of all selected centre prices data along with Division/District and State Average to Commissioner, Civil Supplies on daily basis & Monthly consolidated report of daily prices is also communicated to Commissioner, Civil Supplies.

Weekly Retail Prices of (30) Essential Commodities

The Weekly Retail Prices of 30 essential commodities are arrived from 51 Revenue Divisions choosing 21 essential commodities from weekly report and 9 from daily price reports. The daily & weekly prices data is also uploaded to the Hon'ble Chief Minister CORE dashboard from this department.

As per the suggestions of the department Prices Committee the price collection for Vanaspathi & Salt Crystal has been dispensed w.e.f October 2020 duly including the Chilli Powder & Groundnut Kernel.

Monthly consolidated report of Weekly retail prices of 30 Essential Commodities communicated to Secretary to Government, Planning Department & Commissioner, Civil Supplies.

Wholesale Prices of (40) Agricultural Commodities:

Directorate of Economics and Statistics collects and compiles wholesale prices of 40 agricultural commodities on monthly basis (last Friday of the month) with District as a unit and prepare State average wholesale Price report. These prices are used to assess the price trends at wholesale centers.

Wholesale prices of Livestock

Livestock is a sub-sector of Agriculture and contributes around 12.51% to state GVA. The Prices of Milk, Meat and by products such as Head, Legs and Hides & Skin are required to estimate GVA of Live Stock sector.

Consumer price index numbers for industrial Workers (CPI-IW)

The Consumer Price Index Numbers measure the changes in the retail prices of a specific basket of goods and services, over a period of time. DES collects and compiles CPI-IW every month by obtaining the data from the selected centers in the State on weekly and monthly basis.

The Labour Bureau, Shimla, GOI the ongoing Central series of CPI-IW is with base year 2001=100 has been replaced with base year 2016=100 from September 2020 onwards.

The data is being collected from seven centers selected from Andhra Pradesh under Central and State Series based on Industrial workforce. The centers are 1. Visakhapatnam 2. Guntur 3. Nellore 4. Vizianagaram-Chittivalasa 5. Kakinada-Rajahmundry 6. Jaggaiahpet 7. Tirupati-Renigunta. Out of the these 7 centres, the Labour Bureau, Simla compiles the index for the first three centers since they comes under Central Series, while the State Directorate of Economics & Statistics compiles the indices covering the remaining centers in Andhra Pradesh.

The Consumer Price Index Numbers for Industrial Workers for State Series will be disseminated through the Directorate website for wider use.

Building construction cost index

The Prices of the Building Materials are collected quarterly for 15 items from 13 District Head Quarters for Urban and 13 selected Centers for Rural in Andhra Pradesh and the

District Prices are sent to the National Building Organisation, GOI, New Delhi along with the wages of the Construction Labour through BRIKS software and compiles Building Construction Cost Index numbers with base year 1988-89 for rural and urban centers, separately. These prices are used for compilation of GSDP.

Prices of Agricultural Commodities

The Agricultural prices have enormous economic and political implications. These prices are not only balance between the demand and supply but also affect the inter-sectoral distribution of income and the rate of capital formation in the farming sector.

The Farm Harvest Prices of 24 Principal Agricultural Commodities from the selected centers are being collected and a consolidated report is being sent regularly to the Department of Agriculture and Cooperation, GOI for both the seasons.

Daily Wages of Agricultural Labour

The Daily Wages of Agricultural Labour are obtained from 44 (specifically selected) centers spread over 13 districts in the State. After consolidating the monthly reports, the Index of Agricultural Wages are compiled and sent to the Department of Agriculture and Co-operation, GOI, New Delhi.

Publication

An annual publication entitled “Prices, Wages and Index Numbers” for the year 2020-21 is brought out with an intention to provide Prices data, wages and related index Numbers released by the Government of India and Directorate at one place.

VIII. Social Statistics Division

Social Statistics Division deals with all the matters relating to Official Statistics comprising social, demographic, education, medical, health, human development, availability of facilities, infrastructure, environmental, disaster statistics etc. and also collected the related data from various sources, compiling and releasing the subject-wise publications on regular basis.

The Social Statistics Division brought out the following publications during the year 2020-2021

Statistical Abstract, Andhra Pradesh, 2020

This Annual Publication is releasing since 1956 and the latest issue of Statistical Abstract, Andhra Pradesh, 2020 is 62nd in the series of Publication. It is most comprehensive and prestigious Publication of the Directorate, serving as an important source of material for statistical time series data of different sectors of Andhra Pradesh Economy.

The Publication is having **28 chapters with 426 tables** covering viz; Population, Vital Statistics, Climate, Agricultural & Irrigation, Live Stock, Forests, Industries, Mining, Fuel and Power, Transport, Banks, Prices, Labour Welfare, Education, Judicial, Police and Crime, State Economy for the current financial year along with comprehensive data for the previous years. It also contains comparative statistics of Andhra Pradesh, all India and also for Major States for certain selected indicators. The data was collected from various Central and State Government Departments, Government Undertakings, Local Bodies and other organizations etc. It is useful for Administrators, Planners and Research Scholars and all.

Districts at a Glance, Andhra Pradesh, 2020

It contains **23 chapters with 160 tables** covering the District-wise information on important sectors by capturing the Socio Economic scenario of Districts in the State. It provides information on Population, Vital Statistics, Rainfall, Land Utilisation, Area, Production & Yields of Principal Crops, Net Area Irrigated, Consumption of Fertilizers, Census of Land Holdings Census of Live Stock & Fishing, Agriculture Machinery & Implements, Education, Medical & Health, Industries, Power Consumption,

Communications, Road Length, Banking, Housing, Employee Census, Gross District Domestic Product, Primary Weavers Co-Operative Societies etc. The data is obtained from Statistical Abstract, Andhra Pradesh, 2020.

Andhra Pradesh Economy in Brief, 2021

For the quick over view of the level of development in the State, a pocket size Publication will be released regularly on the 1st January of every year. The objective is to assess the development in the Current Year with reference to years. This Publication contains **60 tables** by consisting of important Selected Indicators for different sectors of economy covering Demography, State Economy, Public Finance, Agriculture and allied activities, Infrastructure Services, Social Service, Price statistics and Planning. Further selected indicators of Major States are also presented to have comparative study of development levels. The data is mainly obtained from Statistical Abstract, Andhra Pradesh, 2020.

District Hand Book of Statistics (DHBS), 2020

The publication of District Hand Book prepares the concerned Chief Planning Officers (CPOs). The Publication contains **21 chapters with 104 tables** relating to the concerned districts. Mandal-wise information on Population, Medical & Public Health, Climate, Agriculture, Irrigation, Livestock & Veterinary Services, Fisheries, Forestry, Industries, Mining, Fuel & Power, Transport & Communications, Public Finance, Prices, Employment, Labour & Labour Welfare, Education, Local Bodies, Cooperation, Judicial, Police & Crime, Social Welfare Women & Child Welfare and Miscellaneous are available in these Publications. The salient features of the district, important tourist & historical places, boundaries & topography of the district are also featured in the Publication.

Gender Statistics, Andhra Pradesh, 2019

The 1st publication of Gender Statistics, Andhra Pradesh, 2010 was released in the year 2012. The Gender Statistics, Andhra Pradesh, 2019 is 8th in its series. The publication consists of **9 chapters with 225 tables**. Gender Statistics publication reveals Legal Rights of Women, Growth of Population, Health and Family Welfare, Education and Literacy

rate, Women's participation in Politics, Economy Development and Decision making, Crimes, Convictions & Police Force, Women & Child Welfare schemes etc., The data is obtained from 20 Line Departments.

Child Statistics, Andhra Pradesh, 2019

Child Statistics, Andhra Pradesh, 2019 is 6th in its series. It consists of **6 chapters with 126 tables**. This Publication reveals comprehensive data on Children in all aspects of their lives and covers information on Commitment & Responsibilities, Demography, Health, education, Child Labour and Child Protection. The data is obtained from 8 Line Departments.

Compendium of Environment Statistics, Andhra Pradesh, 2019

The 1st publication of Compendium of Environment Statistics, Andhra Pradesh was brought out during 2006. Collection and Compilation of Compendium of Environment Statistics, 2019 is under progress. It consists of **8 chapters with 186 tables** covered in and provides a sound database on Bio-Diversity, Atmosphere, Lithosphere, Hydrosphere and Human Settlements. This Publication consists of various issues regarding Environment Degradation in several aspects. The data is obtained from 17 Line Departments.

Statistics for Local Area Planning (SLAP)

The Government/NGOs and policy makers are very conscious to know the information on availability of infrastructure, amenities etc., at village/Gram Panchayat level for formulation of plans/schemes required for development of their Local areas/Constituencies.

In view of importance of Village/Ward Level Statistics, the Government of A.P. have decided to collect the Statistics at Village/G.P Level covering all Local Bodies data in the state from 2012-13 onwards under Statistics for Local Area Planning (SLAP) by utilizing the financial support from the GOI under the scheme of “**Support for Statistical Strengthening**” (SSS).

- The main objective of the scheme is to develop and maintain a comprehensive database at village/Grampanchayat level to meet the requirements of Govt.

Departments/Agencies for planning at village/G.P level and to make it available to public for wider use.

- To keep all the data sets under one umbrella.

The Government of A.P decided to develop web based online applications for all the activities of Directorate of Economics & Statistics including SLAP to have a reliable, credible and timely data. The web based application has already been developed from 2014-15 onwards.

Coverage of SLAP data:

984 indicators data @village/Grampanchayat level from 20 Departments is being collected from all villages in the State, which includes all Gram Panchayats covering all Mandals in the State. With this 1.75 Crore indicator data points are available in SLAP.

Data sets on important parameters like, Schools, PHCs, Roads, Land Utilization, Population and Basic amenities are collected for all revenue villages. The Collection and Compilation of SLAP data from 2012-13 to 2015-16 was completed and data base is available in DE&S.

For urban mandals, Municipalities, Corporations data pertaining to SLAP is being collected from 2016-17 onwards. The Directorate has updated the data of all urban nature villages along with 9 urban mandals from 2016-17 to 2019-20 and data is available at www.des.ap.gov.in DE&S web portal.

Present Status: 2020-21

- The Collection and Compilation of data for the year 2020-21 is under progress.
